Initial Draft of Naval Treaty Is Completed

LAWYERS LIKE NEW SUPREME COURT POLICY

REASONS FOR ALL ITS DECISIONS NOW GIVEN

BY DAVID LAWRENCE

(Copyright 1930, by the Escanaba Press)

Washington, April 17.—Although the supreme court of the United States doesn't make any comment on its own work, lawyers believe that the entry of Chief Justice Hughes has introduced a new policy, much more satisfactory to the bar, in giving reasons for all decisions instead of handing some of them down with a simple affirmative or negative verdict.

An unusual feature of this week's proceedings, when the court handed down 26 opinions after a four-week recess, was that no cases which had been argued and presented to the court were decided without opinion. Usually on the decision day just following the recess many decisions are rendered without opinion. Lawyers have complained for many years that when a case is important enough to be considered by the supreme court of the United States, it should note its reasons, however brief, in handing down its decisions.

Gave Written Opinion.

The fact that all argued cases which were decided this week were accompanied by written opinion giving the court's reasons may or may not indicate a change of policy, but the general belief prevails now that it does indicate a change and that opinions may be expected from the court in all argued cases in which the court feels it has jurisdiction. Some cases, on the other hand, in which the court finds after hearing argument that it has no jurisdiction, probably will continue to be decided without opinion.

Hughes Working Hard

The energy and vigor of Mr. Hughes and his great capacity for work is reflected in his participation in recent decisions. Since February 24 when he took the oath of office as chief justice, the supreme court has handed down 32 opinions. Nine of these opinions—or more than one-fourth—have been written by Mr. Hughes, which is double the number averaged by his colleagues. Six of the twenty-six opinions handed down this week were written by Mr. Hughes. Of the total of thirty-two opinions Mr. Hughes did not participate in the consideration or decision of ten because of previous affiliation with the cases. Thus he wrote nine of the twenty-two opinions in which he felt qualified to participate. In other words, inasmuch as Mr. Hughes was unable to work on ten cases which had to be considered by his colleagues without consulting him, he made up for his lack of participation by

ROBBED 3 TIMES, LOSES $48,500

"What, again?" said P. J. Kloos, above, manager of a Dayton, O., branch bank, when he found himself looking into the business end of a revolver for the third time. Six years ago gangsters robbed his bank of $7500 in a holdup; four years ago they took $8000, and the recent robbery netted them $33,000.

ALGER RESIDENT TAKES OWN LIFE

Used 12-Gauge Shotgun; Head Almost Entirely Severed From Body

Munising, April 17 (Special)—Joe Moss, a single man, aged 32 years, committed suicide this morning at six o'clock at Louis Marcelon's hotel at Shingleton, blowing off his head with a 12 guage shotgun, the shell he used containing bird shot. Moss had worked at Fred Blank's camp and about two weeks ago he drew his pay and has been spending his time at, and in the vicinity of Shingleton.

Last evening he asked several persons in the boarding house to share his bed with him, evidently being afraid of himself while in a despondent mood. None of the other boarders accepted his offer and he went to bed alone.

This morning the report of the gun aroused everyone in the place and investigation revealed a horrobile sight in his room. The man evidently stood against the door of his room, with his back against it and with the butt of the gun resting upon the floor and the muzzle directly under his chin. It is supposed that he sprung the trigger with his foot, blowing off his head almost entirely, his teeth and pieces of his jaw bone being found scattered about the room.

Moss came to the upper peninsula from Boyne Falls, where the family owned a fine farm. He was intelligent and a good workman and for some time worked at Walsh where he ran the steam loader. Nothing but a fit of despondency, due to his financial condition and his excessive drinking during the past two weeks, could have caused him to take his life in this manner.

Fourth Member Of Boroo Gang Found At L'Anse, Mich.

Detroit, April 17 (AP)—Leonard Puranen, wanted as a member of the Boroo holdup gang, has been arrested at L'Anse, Mich., police here were notified today. An officer will leave tomorrow for him.

Puranen was said to be the last man wanted in connection with robberies attributed to the gang, which was led by Henry Boroo, former patrolman. Boroo and two of his brothers yesterday were given long prison terms on pleas of guilty.

Woman Convicted Of Bank Robbery

Detroit, April 17 (AP)—After fighting the charge in two states, Barbara Dalton, 25, was convicted in circuit court here today of taking part in a $17,600 bank robbery at New Boston, Mich., in October 1926.

The trial was her second on the charge, a previous jury having failed to reach a verdict.

The principal witness against Miss Dalton was Floyd Drennan, who pleaded guilty to the robbery harge and brought about the woman's arrest in Miami, Fla., as his accomplice.

ARE AWAITING APPROVAL BY GOVERNMENTS

AMERICAN SENATE HAS DIVISION OF OPINION

BY FRANK H. KING.
Associated Press Staff Writer.

London, April 17. (AP)—Three months ago today, Secretary Henry L. Stimson and his colleagues of the American delegation landed in Plymouth en route to the naval conference in London.

Tonight the result of their labors for naval limitation, completed in treaty form, was in the hands of the governments of the five great sea powers, awaiting approval by those home governments so the London treaty may be signed at the scheduled time Tuesday.

Under Scrutiny.

The salient points of that pact, will rule the seas until the next disarmament conference, scheduled for 1935, is called into session, are under scrutiny in Washington, Paris, Rome and Tokyo.

But the most important development today from the American viewpoint was the formal statement by Senator Robinson whereby the United States senate, which holds America's final word intreaty making was assured that the "safeguarding clause" of the three-power pact among the United States, Great Britain and Japan has been moulded in accordance with the traditions of American foreign policy.

The senator, in announcing the terms of the clause which protects the United States, Great Britain and Japan from the naval competition on any other country during the life of the London treaty, said he had opposed a similar clause in the Washington treaty because it might have entangled the United States.

SENATE CAUTIOUS.

Washington, April 17. (AP)—In a series of conferences designed to pave way for consideration of the London Naval Limitations Treaty in the senate President Hoover found senate leaders in a cautious mood today which indicated a division of opinion on the pact.

Chairman Borah, of the foreign relations committee, announced after a talk with the President that he believed it "helps the cause of disarmament."

Committee Hearings.

But a few hours later, Chairman Hale emerged from the White House, announcing that he intended to have hearings by his committee of America's naval experts to determine the change in policy on cruisers which he believes is embodied in the pact.

Senator Watson, of Indiana, the Republican leader, who listened to some of the high points of the treaty at a White House breakfast withheld his opinion on the treaty until it takes final form and Senator Swanson, of Virginia, ranking Democrat on the foreign relations committee took the same position with Mr. Hoover.

No decision was reached at the conferences on whether the treaty will be sent to the senate for ratification at this session and the President indicated he would await talks with the returning American delegation before deciding that point.

Royal Couple Have Settled On Farm

Nairobi, April 17 (AP)—After two months of an adventurous flight from England, the Vicomte and the Vicomtesse De Sibour, who is the only daughter of Gordon Selfridge, American department store owner in London, have settled down on their farm in Kenya colony.

The couple had to sell their plane in Abyssinia and traveled from Djiputi to Nairobi by boat and train, the first time in four years they had used a train for transportation.

They were allowed to enter Abyssinia in their Gypsy Moth plane on condition that they sell the machine, which they agreed to do. The Negus then let the fliers go anywhere in the country they wished.

ELECTROCUTED

Trenton, N. J., April 17 (AP)—Henry Campbell Close, was electrocuted tonight at states prison here for the murder of Mrs. Fred Mowry, whom he had bigamously married.

Lindbergh Will Use Aviation Sextant On High Altitude Flight

Los Angeles, April 17 (AP)—Colonel Charles A. Lindbergh's high altitude experimental flight, which will start from here in a few days, will be the first in which he has carried an aviation sextant, he said today, and the first trip for Mrs. Lindbergh, the former Anne Morrow, as an aerial navigator.

The aviator, who alone and flying blind, successfully hopped the Atlantic to Paris, disclosed that while he did not use a sextant on that flight, he is carrying one on the transcontinental trip to ensure the possibility of continuing by celestial navigation if storm conditions force him above the clouds.

"Mrs. Lindbergh has used an aviation sextant before," Colonel Lindbergh said. "But on only trial flights. She has been studying aerial navigation since we came to California last January. Her studies have included both the technical and practical ends, including the 'shooting' of the moon and stars.

"Celestial navigation while flying is easily accomplished. Only a few moments are required to take bearings with the sextant. Altogether it requires only three and a half to four minutes to make the observations and work out the location and direction. This, of course, is with the use of tables."

Completing preparations for the flight, Colonel Lindbergh said he wished to express deep appreciation of the co-operation of the navy and its meteorological and weather observations at the Lakehurst, N. J., naval aviation station. He said excellent aid for the flight was being given him by the work of Lieutenant Reichelderfer and his aides at Lakehurst, who was reporting daily upon observations taken in the higher altitudes.

Colonel Lindbergh, who is making the high altitude flight to test speed and other possibilities, for transport planes in the currents above 10,000 feet, pointed out that conclusive facts could not be gathered in one transcontinental flight. He indicated there probably would be other high altitude flights to follow.

LOCAL CONCERN GETS CONTRACT

Coleman Nee Is Lowest Bidder on Escanaba Paving Project

The contract for Escanaba's 1930 concrete paving program was awarded by the city council last night to the Delta Contracting Co., of which Coleman Nee of this city is president. The local concern submitted the lowest bid, with a total of $53,580.09. Next in line were two bids from the Middle West Roads Co., Chicago, bitulithic contractors, whose proposal totalled $54,230.88 and $56,599.03. A bid from the Bacco Construction company, Iron Mountain, was withdrawn by M. J. Bacco when the first reading revealed that he was the highest bidder.

Give Street to School

Prior to taking action on contracts for the First Avenue North paving contract, the council acceded to a request from the board of education to vacate the street and alley between Fifteenth and Sixteenth streets on First avenue north, the block selected for the site of the new junior high school. The petition presented by the board of education was granted, subject to certain reservations for water, sewer, and pole line rights, and May 15 was set as the date for hearing objections on the council's action.

Issuance of bonds in the amount of 45,000 for 1930 street improvements was also authorized by the council at the meeting Thursday night.

"He's Bran' New And We'se Named Him After You"

Savannah, Ga., April 17 (AP)—One census enumerator in a negro district here has achieved the same immortality that came to Admiral Dewey, several presidents, and perhaps a few pugilists.

He was taking stock of a negro household when the head of the family and his clansmen, large and small, suddenly retired to the rear in mysterious manner. The enumerator waited, wondered and listened.

Presentely the chief of the household returned, smiling broadly.

"Numerator's arrived," he announced.

"Who's numerator," asked the census taker.

"He's a bran' new baby, and we'se named him after you," said the chief.

Alleged Bomber Is Arraigned In Court

Grand Rapids, Mich., April 17 (AP)—A plea of not guilty was entered in superior court today in behalf of Lee Blue, 29, of Detroit, alleged theater bomber. The defendant stood mute on his arraignment.

Specifically Blue is accused of bombing the Wealthy Theater several weeks ago. Trial will probably be held next week.

Good Friday to Be Observed In Escanaba Today

In keeping with the Governor's proclamation for the observance of Good Friday, Escanaba stores and municipal offices will suspend business from noon until 3 p. m. today, and banks of the city will not be open during the afternoon. Gas stations will also be closed for the three-hour period.

Special services are scheduled at local churches, and they are extending an invitation to the public to attend.

DUTIES ON LACE ARE ELIMINATED

Senate Increase Voted Down by Conferees; France Objected

BY D. HAROLD OLIVER
(Associated Press Staff Writer)

Washington, April 17 (AP)—Senate increases in duties on narrow laces, against which popular demonstrations were staged recently in France, were eliminated from the tariff bill today by the senate and house conferees who all but completed the settlement of differences between the two legislative branches over the rate sections.

By rejecting the senate rates on narrow laces, the conferees restored the existing levy of 90 per cent on all laces. The senate had voted a tariff of more than 125 per cent.

"Very Angry"

Contending the "threat of higher lace duties made France very angry" and induced the French parliament to enact in retaliation yesterday higher levies on American automobiles, Representative Clancy, Republican, Michigan, in a statement, said the conferees should be congratulated by the American au-

(Continued on Page Two)

Jury Finds Woman Guilty, Extortion

New York, April 17 (AP)—Olga Eide Edwards, who came out of the west 13 years ago a young girl with glittering dreams of theatrical stardom, but who only acquired luxurious tastes that were eventually to lead her into trouble, today was convicted of attempted extortion.

The extortion charge was brought by the wealthy, middle-aged business man who gave her her first glimpse of the material satisfactions that money could buy.

With a slight smile playing about her lips, she heard each of twelve jurors today solemnly say he believed her guilty of having threatened to "expose" Nathan L. Amster as the father of her six-year-old son, Lee, unless he acceded to her demands for money.

Discontinue Ferry Service At Straits

Lansing, Mich., April 17 (AP)—State ferry service across the straits has been temporarily discontinued until the ice situation becomes sufficiently cleared up, it was announced Thursday. During the suspension of the state ferry service automobiles will be transported by railroad ferries.

BLAME CAPONE FOR CITY HALL GRAFT SCHEME

CHICAGO GANGSTERS IN VICE MERGER, ALSO CHARGED

Chicago, April 17. (AP)—Just released from prison a month ago, Scarface Al Capone, the gang chief, was blamed by city councilmen today for a baneful gesture toward forcing the establishment of a city bureau of plumbing which he and labor leaders would control.

The report of Scarface Al's attempt to "muscle in" on city hall patronage came in the wake of a purported peace agreement said to have been reached last night between Capone and other gang leaders by which they were to pool their interests and split the jackpot that would result from monopolized control of liquor, vice and gambling in Chicago.

Another Victim.

However, almost at the time the supposed peace parley was in session, a gangster was slain by a machine gun detail in customary gangland fashion. The victim was Joseph Blue (or Blew, reputed mail robber, safe blower and more recently bootlegger, who was pierced by six machine gun bullets as he raced his automobile in a vain attempt to outspeed the assassins.

Discovery that Blue had been a suspect in the $500,000 Union Station mail robbery of January 18, 1921, caused police to seek former confederates of the slain man, including Fred Burke, suspect in the Moran gang massacre of Valentine Day, 1929. Recalling that $166,080 of the loot was never accounted for, Chief Postal Inspector K. D. Aldrich suggested that Blue may have uncovered some of the money since his release from Atlanta prison last January and had held out on his accomplices.

Plumbing Bureau.

Capone, according to various councilmen, is endeavoring to force the passage of an ordinance that would create the bureau of plumbing, give labor leaders control of the city plumbing employes. The alderman said certain labor business agents are seeking to control the patronage now held by the councilmen. They cited Mike Corrozo, boss of six unions, who they said controls the jobs of 3,000 union city employes.

Establishment of a plumbers' bureau, the aldermen said, would place every plumber, plumber's helper, and seasonal employe in the water department under control of labor business agents, who the city councilmen said have retained Capone to aid their efforts at establishing the bureau.

"Don't quote me," various of the councilmen said, "or I'll get a 'pineapple' or a bullet."

Captain John Stege, chief of detectives, scoffed at the report that the gangsters had consolidated for a monopoly.

Russia Will Adopt Collective Fishing

Moscow, April 17 (AP)—Encouraged by the great strides made in the conversion of small farms into state controlled collective farms, the Russian government today decided to adopt the same principal with regard to the hundreds of thousands of fishermen in the land of the Soviets.

With a view to higher productivity, the fishermen will be grouped into so called "artels," pooling their resources and equipment. Neither Kulaks (rich peasant proprietors) nor disfranchised persons will be accepted as members of "artels," whose principal aim is to unite the poor and the middle class fishermen.

Dies As Result Of Accident Injuries

Cadillac, Mich., April 17. (AP)—Edna Carlson, 17-year-old high school student, who was injured in an automobile accident Tuesday night near Tustin, died here at 2:30 a. m., today. It was the second fatality to result from the accident, Coleman Bobo, 19, having been killed instantly. Five other youths injured in the accident are still in the hospital. The condition of Carl Hoagland, 21, who suffered a fractured skull and other injuries, was said to be critical.

"BOY SHERIFF" IS HELD IN SLAYING

Lyall T. Wright, above, 30, known as the "boy sheriff" of Juneau county, Wis., before he was ousted two years ago, was arrested on first degree murder charges in connection with the slaying of District Attorney Clinton G. Price at Mauston. Wright was the youngest sheriff the state has ever had.

SHAFER FLAYS CANALS PLAN

Would Block Seaway Progress; North Dakota Governor Says

Washington, April 17 (AP)—The proposed inclusion of the Erie and Oswego barge canals in the pending rivers and harbors bill was termed in statement by Governor Shafer of North Dakota, issued by the Great Lakes-St. Lawrence Tidewater association today, an "astounding thing" which "should not be tolerated by either congress or the country."

"The purpose back of this movement sponsored by Congressman Dempsey of New York, chairman of the rivers and harbors committee," the statement said, "is two-fold: First to block the progress of the St. Lawrence seaway and to substitute therefore the so-called all-American route; and second to foist upon the federal government two cross-country barge canals which have long been an intolerable financial burden to the state of New York."

The rivers and harbors appropriation bill as now agreed upon in committee contains a provision for taking over the two canals by the government. While not provided in the bill, eventual deepening of the waterways would be undertaken by the government under engineer's recommendations.

The Schafer statement charged that inclusion of this provision in the bill "can only be accomplished through the well known practice of trading and bargaining.

The vicious character of this proposal should be promptly exposed and defeated on its merits."

Seek Reversal Of Verdict Against Ex-Police Chief

Lanising, April 17 (AP)—An appeal for reversal of the conviction on charges of padding payrolls of John F. Connors, former Ypsilanti chief of police was argued before the supreme court today.

Jacob J. Fahrner, Ann Arbor attorney, asked that the conviction be set aside on the ground of errors in the Washtenaw court procedure. When prominent citizens made affidavits a fair trial would be impossible and cited what he claimed was prejudicial newspaper publicity and contended the judge's instructions to the jury virtually amounted to a directed verdict against Connors.

Flood Threat In Ohio Has Passed

Toledo, Ohio, April 17 (AP)—The flood threat along the western shore of Lake Erie and Maumee bay had passed tonight as lake and river levels fell back toward normal after waves had battered homes and highways near the shores.

The water dropped to near normal as the northeast wind which pushed the waves over the breakwaters lost its force. Late yesterday the wind had reached almost gale proportions.

HOLD UP TRUCK ENROUTE FROM AVIATION PORT

GRAB FIVE SACKS ARRIVED FROM GREEN BAY

Chicago, April 17 (AP)—Robbers tonight held up a mail truck enroute from an air field to the postoffice and escaped with five sacks of registered air mail.

The mail had just arrived by plane from Green Bay. Two automobile loads of robbers participated in the holdup. The value of the loot was not determined.

The driver, Adolph Stehno, 25, employed by the Universal Airlines, told police that he had just pulled his truck out of the rear of the Universal hangar into Sixty-third street, when two cars pulled alongside. The first contained three men, two of them masked.

Kidnap Driver

One man rode on the seat with him and he drove under the threat of a pistol half a mile east. There all three cars stopped and he was taken from his truck, along with the five sacks of mail, and put into one of the bandits' cars.

The mail truck was abandoned and the two cars drove south to Seventy-Fourth street, where Stehno was put out. He stopped a passing car and rode back to the hangar, where he reported the robbery.

Postoffice authorities would hazard no estimate as to the value of the registered mail. It will not be known until a check is made in Minneapolis, they said.

The mail plane, piloted by A. R. Manning, Jr., arrived on the schedule of a Minneapolis plane which usually brinks much valuable registered mail. The Minneapolis ship, however, was forced down at LaCrosse, Wis., by bad weather.

Postoffice officials thought the robbers were in search of the Minneapolis plane's shipment.

Police Lieutenant Albert Mikes doubted if any of the major gangs in Chicago were responsible for the holdup.

Postal Inspector D. F. Lyon, one of the two in charge of the investigation, said he had learned that one of the registered sacks was from Oshkosh, Wis., another from Milwaukee.

Asks That Parker Answer Complaints

Washington, April 18 (AP)—After a conference on senate Republicans today, Senator Watson, of Indiana, the party leader asked that Judge John J. Parker, of North Carolina, be called before the senate judiciary committee to answer complaints against his nomination as an associate justice of the supreme court.

Confronted with restlessness in the Republican ranks which forebodes serious opposition to the nominee, Senator Watson stated after the party meeting that he would ask that Parker be called.

The protest of the association for the Advancement of the Colored People that Judge Parker showed prejudice toward the negroes in a speech attributed to him when he was running for governor in 1920 is the chief concern of the Republican regulars.

Proposal to Recall Commissioners Loses

Pontiac, Mich. April 17 (AP)—The voters of this city today rejected, by a two-to-one majority, a proposal to recall four members of the city commission.

More than 10,000 votes were cast, and the commissioners were uniformly successful in retaining their positions.

Those against whom the recall proposal was directed are B. Donaldson, Fred Parmenter, Fred Welch and James Spence.

"Out of Work" At Age of 103 Years

Joplin, Mo., April 17. (AP)—John Henry Holt, 103 year old negro is "temporarily out of work."

A census enumerator found Hold "just resting for the present" with his boy, John A. Holt, 82, school janitor, but expecting another job "to turn up soon."

RASKOB TRIED TO GET FUNDS

Letter Revealed At Senate Hearing Reveals He Led Wet Drive

Washington, April 17 (AP)—Chairman Raskob of the Democratic national committee was represented today in a letter read before the senate lobby committee as having scanned the list of contributors to the Democratic campaign fund and then in the capacity of a director of the Association Against the Prohibition Amendment seeking to get funds from these people for the association's drive against the dry law.

Lead Drive for Demos

The letter, purporting to have been written last November by W. P. Smith of Philadelphia, a vice president of the Anti-Prohibition association, to Joseph R. Hamlen, of Boston, said letters were being sent to "some large contributors to the Democratic and Republican campaign funds last year" and that Raskob was signing "for the Democrats."

"We are writing to some of our directors at the present time," the letter said, "in an effort to secure the balance of our budget by the end of the year and also to some large contributors to the Democratic and Republican campaign funds last year.

"The latter letters are being signed by Mr. Lamont Du Pont for the Republicans and Mr. John J. Raskob for the Democrats. I enclose copies of both letters for your information—these letters being slightly different for the Republican and Democratic parties."

The letter was read while the committee was questioning Henry H. Curran, president of the Association Against the Prohibition Amendment for the second day concerning the activities of the organization advocating repeal of the dry laws.

"Dryest Congress"

Reiterating that the people of the United States were three to one against prohibition, Curran said that the present congress was three to one for prohibition and it would do no good to "lobby" in Washington.

"Congress hasn't caught up with the people yet," he asserted, adding that he thought it was a good thing because it would insure that another "mistake" on prohibition would not be made.

"This is the dryest congress we have ever had," he said, smiling at the four lobby committee members present, three of whom are dry.

"But," he added, "this is the bottom of the hill. This is the turning point."

Live Maggots Are Applied to Bones To Cure Diseases

Washington April 17 (AP)—Dr. William Stevenson Baer, of John Hopkins university, chief surgeon of the orthopedic section of the American Expeditionary forces during the World War, tonight made public extraordinary results in the cure of bone diseases by the application of live maggots.

At a special session of the House Veterans committee, Dr. Baer reported that the treatment, an outgrowth of his battlefield experiences, and consisting simply of placing live antiseptic maggots to feed on inflammation of bone and marrow osteomyelitis, was reported as having proven completely successful in 200 cases over a period of two years.

"Living disinfectants," Dr. Baer termed the treatment which he worked out in his private laboratory in his children's hospital on the outskirts of Baltimore, and later introduced in all hospitals in which he operates.

Good-Will Girls Visit Mrs. Hoover

Washingto, April 17 (AP)—Although confined to her room in the White House Mrs. Herbert Hoover received this afternoon the four Japanese girls who came to this country bearing message of good will and gratitude for the assistance rendered Japan during the severe earthquake of 1923.

Mrs. Hoover's condition was described at the White House today as somewhat improved although a wrenched back sustained in a fall last Sunday continues to pain her considerably.

BUILDING WRECKED

Memphis, Tenn., April 17 (AP)—Three persons were injured, a building wrecked and nearby structures were shaken by an explosion under a building occupied as a beauty shop in south Memphis this afternoon.

Cats are subject to comparatively few diseases, and fewer still of these are of a contagious nature.

LAWYERS LIKE NEW SUPREME COURT POLICY

(Continued from Page One)

writing a large number of opinions in the other group of cases.

More Speed Shown.

Another interesting change being commented upon by the bar is that since the assumption of office by Mr. Hughes, the interval between the formal presentation of petitions for review of cases and the orders of the court announcing whether it will or will not review the cases has been considerably shortened.

This week the court has thirteen cases on its docket which have been completely argued and are now awaiting decision. All of these cases were heard prior to January of this year. In other words all cases argued since Mr. Hughes took office have been disposed of the docket of such cases so far as he is interested is clear.

Mr. Hughes' long service on the bench, followed as it was by an opportunity in private life to discuss the efficiency of the supreme court with distinguished lawyers, may be said to be the reason for the new policies of dispatching business which the chief justice is believed to be introducing. It has never before happened in American history that a justice of the supreme court on leaving the bench has ever returned to it. Indeed Mr. Hughes knows more perhaps about the comment of the outside world about the way the cases are handled than anybody else on the bench and the expectation is that, without in any way disturbing the judicial deliberateness of the supreme court, the administrative efficiency will be gradually improved. Chief Justice Taft was responsible for many improvements over the court's methods in bygone days and was constantly trying to suggest ways and means of preventing congestion in the lower courts. Contrary to the general belief that a judge merely has cases and looks up the law, there is plenty of opportunity for the exercise of executive ability on the part of the chief justice of the United States.

Had Framed Negroes To Collect Reward

Fort Worth, Texas., April 17 (AP)—The district attorney's office today announced that A. P. Boyt, a barber, had confessed that the slaying of two negroes who attempted to rob the First State bank of Polytechnic, a suburb, last Thursday, was framed by four white men in a plot to collect a reward.

The plan was to have the negroes hold up the bank and slay them on the scene for a reward of $5,000 offered by the Texas Bankers association for each slain bank robber. The association, however, announced it would not pay the amount for the slayings here as the Polytechnic bank did not contribute to the reward fund.

Find New Evidence In Baker Mystery

Washington, April 17 (AP)—Discovery of new evidence in the murder of Miss Mary Baker was announced today by detectives seeking the man who assaulted and shot the 28-year-old navy department employe last Friday, but little optimism was in evidence as to prospects of an arrest.

Miss Baker's body was found Saturday in a culvert near Arlington National cemetery with three bullet wounds in her head and body. Her blood-stained automobile was found a quarter of a mile away and still farther away her keys, handkerchief and other small objects were discovered. Authorities are confident she was killed by a man with whom she was on close terms.

INDIAN LEADERS ARE SENTENCED

Gandhi Urges Followers To Continue Non-Violent Efforts

Bombay, April 17 (AP)—The government bore down heavily today on the leaders of the Civil Diisobedience campaign in India.

Magistrates all over the country spent the day in sentencing followers of Mahatma Gandhi charged with violating the salt laws. A total of 27 prominent Nationalists were sentenced to varying terms—12 at New Delhi including Dava Das Gandhi, son of the Mahatma; three at Allahabad, 10 at Karachi, and two at Surat. Gandhi's son was sentenced to three months simple imprisonment. Doctor Choithram, president of the Provincial Congress Committee at Surat, received the longest sentence—two years of rigorous imprisonment.

Gandhi himself still was unmolested by the police. He took advantage of the lull in rioting which yesterday spread to the three important cities of Calcutta, Karachi, and Poona, to make a long speech to volunteers at Navarsi, accusing the government of provoking riots by arresting Pandit Jawaharlal Nehru and other non-violent campaign members.

He said the government "with the utmost deliberation picked on leaders of the people who are known to be partial to non-violence and possess a controlling influence."

Concerning the serious riots at Karachi and Calcutta, the Mahatma said he was sure that they would harm the civil disobedience struggle and he urged the demonstrators to continue their non-violent protests.

"Be the violence ever so little," he said, "I have no doubt it will harm our struggle. At the same time the struggle must go on unchecked. If non-violence has to fight the people's violence in addition to government violence it must still perform its arduous task at any cost."

Michigan Towns Are Holding Their Own

Detroit, April 17 (AP)—A distinct tendency of Michigan towns and villages to hold their own despite the growth of large urban centers has been reflected in reports gathered during the first two weeks of the 1930 census.

Of thirty-seven towns and villages in the state have returned complete reports, 71 per cent have registered an average of 112.7 persons while the remaining 29 per cent revealed an average decrease of 69 persons.

The 26 towns whose population increased during the past decade have added a total of 2932 persons while the total decreases of the remaining 11 amount to 759 persons, bringing the net increase thus far recorded to 2173 persons.

Violent Earthquake Is Felt In Athens

Athens, April 17 (AP)—A violent earthquake tonight damaged several towns in the Peloponnesus, but only minor casualties have so far been reported.

Reports from the district where the earthquake was felt most strongly drifted in slowly to Athens during the night.

Several persons were injured, one seriously, in the collapse of a church tower at Isthmia, and a number were reported to have been hurt at Cornith through the collapse of several houses. At Sparta, a church tower fell, but no casualties were reported.

Here's Speedy Relief for Tender, Aching, Swollen Feet

Moone's Emerald Oil Must Give Complete Satisfaction *Or Money Cheerfully Refunded*

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture and pray for quick relief. What's to be done?

Two or three applications of **Moone's Emerald Oil** and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And as for Soft Corns and Callouses a few applications each night at bed time and they just seem to shrivel right up and scale off.

No matter how discouraged you have been with powders, footbaths or other applications, if you have not tried **Emerald Oil** then you have something to learn.

It's a wonderful formula—this combination of essential oils with camphor and other antiseptics so marvelous that thousands of bottles are sold annually for reducing varicose or swollen veins.

Every good druggist guarantees the very first bottle of **Moone's Emerald Oil** to end your foot troubles or money back.

DUTIES ON LACE ARE ELIMINATED

(Continued from Page One)

tomobile industry for their action in killing the senate amendment.

Clancy asserted the new French auto tariff would "kill the sale of American low priced and medium priced automobiles and trucks in France."

"This would be a great blow to Detrot," he said, "and in itself would be disastrous to about 20 per cent of automobile manufacturing in this country if other countries followed the example of France in reprisal for American duties levied against their industries."

The Michigan member said he had found that a majority of the conferees "listened sympathetically" to the pleas of the automobile industry in the lace controversy.

The automobile manufacturers, he added, also were "emphatically requesting that the conferees retain the flexible tariff provision" which the senate changed to restore to congress the power now vested in the president to change customs duties.

Cassidy Released By Mexican Bandits

Mexico City, April 17 (AP)—In a state of nervous exhaustion, Leonard B. Cassidy today was reported on the way back to Tuxtepec, state of Oaxaca, from a wild section along the Popolaopan river, following a harrowing 30-hour kidnaping adventure in the hands of four bandits.

One bandit now is held by the authorities, but because of the meager details available here it is not known if Cassidy, who is an American citizen from Teabody, Mass., is unharmed. It is known, however, that he is in bad physical condition because he asked for a conveyance to take him from the Sebastapol banana farm to the nearest rail point.

PLEAD TO HOOVER

Buffalo, N. Y., April 17 (AP)—A mother wrote from Italy to President Hoover and tonight her son was under arrest in Buffalo on a charge of failure to provide for his aged parent. He is Nicola Scedella, 26, arrested by local detectives for the immigration department to whom President Hoover turned over the mother's plea.

20 LOSE LIVES IN MANILA FIRE

Two and a Half Million Dollars Damages in Ravaging Blaze

Manila, April 17 (AP)—Constabulary reports from Cadiz, province of Occidental negros, tonight stated that twenty persons lost their lives in the burning there of a huge saw mill and the homes of 5,000 inhabitants. The fire was said to be under control after raging two days. The loss had reached approximately $2,500,000 with flames unextinguished.

The Philippine Red Cross has offered to send workers to Cadiz to reinforce doctors and nurses now ministering to the many injured. Search of the ruins is continuing for the bodies of possible victims in addition to the twenty known dead. Nearby towns have sent food to Cadiz, a city of about 25,000 thrown into confusion by the long fight.

Started Tuesday

The fire started Tuesday night in the saw mill of the Insular Lumber company. The plant, one of the largest in the Philippines, was destroyed and the flames quickly spread to the adjacent flimsy houses of natives. Little resistance could be made to the fire which rushed through the inflammable buildings.

The mill, established twenty years ago by the late Senator J. Sloan Fassett of Elmira, N. Y., was owned by the Fassett and Edgecomb interests of Elmira.

Filipinos, fleeing before the flames, impressed every available conveyance to save their household goods. Many camped with their possessions in the outskirts of Cadiz and the country beyond, awaiting aid.

Three Prominent Mining Engineers Honored, Houghton

Houghton, Mich., April 17 (AP)—Three prominent figures in mining and engineering circles were awarded the honorary degrees of doctor of science at exercises at the Michigan College of Mining and Technology here tonight.

The degrees were conferred at the annual class day ceremonies for graduates. The seniors were addressed by Cornelius F. Kelley, president of the Anaconda Copper Mining company, who was a recipient of one of the degrees.

The other two men honored here tonight were James Mac Naughton, president and general manager of the Calumet and Hecla Consolidated Copper company and a former member of the board of control of the college, and William Kelly, of Iron Mountain, Mich., a leader in the mining engineering profession and for many years chairman of the board of control of the college.

Beer has a slight but transient food value for the worker, according to Sir George Newman, chief medical officer of the English Ministry of Health.

OUR BOARDING HOUSE By Ahern

BRIEFLY TOLD

Break Into Home—The Delta county sheriff's department was called to Kipling to investigate a report that the Frank Kroll home had been broken into during the absence of the family. Officers found that the back doors had been pried open, but a check up by neighbors who were taking care of the property revealed nothing missing.

* * *

Cars Crash — Bert Pennings, 512 South Tenth street, was slightly injured yesterday when a car in which he was driving with A. L. Wentworth, 404 South Eighteenth, collided with a machine driven by R. H. Bennett, 1401 First avenue north. The accident occurred at the junction of Stephenson and Third avenue north. Mr. Pennings received bruises on the forehead and a small cut on one arm.

* * *

Who Owns Bicycle?—The Escanaba police department is holding a bicycle picked up in the city this week which may be recovered by the owner if he will call at the police station and prove ownership.

AT THE STRAND.

"A Million for Love" is being shown at the Strand Theatre today and tomorrow. It is a story of the underworld with Reed Howes, Josephine Dunn and Mary Carr in the leading roles.

Local Woman to Start Jail Term

Sentenced to serve one to two years in the house of correction at Detroit, Mrs. Minnie Brandt, 310 Ludington street, was taken to the penal institution Thursday by the Delta county sheriff's department. Mrs. Brandt, who pleaded not guilty when arraigned on a prohibition law violation at the opening of circuit court April 1, later changed her plea to guilty of illegal liquor sale, and was sentenced April 4. Judge Frank A. Bell recommended a term of one year, and gave Mrs. Brandt a few days grace to arrange for the care of her children before going to the house of correction.

Death Ends Career Of Charles Holmes, Co. Clerk 58 Years

Word was received here yesterday of the death at Aurora, Ill., of Charles B. Holmes, county clerk of Kane county for the past 58 years.

Mr. Holmes was well known in this city, having visited here many times at the home of his brother, Rolla A. Holmes, 205 North Thirteenth street.

Charles came here almost every year during the hunting season.

Mr. Holmes was injured in a railroad accident when a young man and lost one of his arms. It was after that accident that he entered politics and was elected county clerk, which position he held until the time of his death. He was 77 years of age.

The survivors are his wife, three sons, three daughters and one brother, Rolla A. Holmes, Escanaba.

Owing to illness the brother will be unable to attend the services, which will be held at Urbana, Ill.

Sheriff Is Seeking Indian's Attackers

Louis Bennett, Indian who was found in a ditch near Harris and claimed to have been slugged, robbed and thrown out of a car, was taken to Menominee Wednesday by Sheriff Charles Bauer. Bennett, whose home is said to be Traverse City, was a patient at St. Francis hospital, Escanaba, after the incident, and has partially recovered from his injuries, which were not as serious as first supposed.

The Indian will be held at Menomine until authorities apprehend the two men in the automobile believed to have thrown him from their car near Harris. The license number of the car disclosed the owner to be William H. Greene, of Marquette, but later it was learned that Greene had sold the Whippet roadsted to Joseph Davis of Devil's Creek, east of Daggett. Authorities had been unable to locate Davis and his companion and believe they retraced their trail and got into Wisconsin.

The license number of the car is 1-162-800.

CANARY NIGHTINGALES

Bremen—Karl Reich has succeeded in developing a strain of canaries which sing like nightingales. He filled his room with both species of birds. When the young canaries were born, the parent birds were removed from the room. The small birds, hearing nothing but music of the nightingales, readily adopted it in place of their own characteristic singing.

SCHOOL FORESTS

ESCANABA'S schools could well emulate the example set by Gladstone and other communities in the peninsula, in the establishment of a school forest. The project is one that is being fathered by the Upper Peninsula Development Bureau and the extension department of Michigan State College and should receive the cooperation to every community in the peninsula.

In a district, once covered with a dense forest, there are in the peninsula today few cities that can boast of even a small patch of timber within their limits. Cities of this section have a habit of throwing out boundary lines to encompass an expanse of territory much greater than either the present or future need. Much of this is waste land that has served no useful purpose since the original stand of timber was removed. Much of this land will again raise trees if given a chance, through planting and protection against fires.

Much of the landscape, now surrounding cities of the peninsula, can be converted from charred stump marred expanses of commons, into attractive forest areas of the future.

At Gladstone, schools of that city will this spring plant trees on 40 acres of land lying on the bluff in the western limits of that city. An area that now presents a desolate and sorry prospect, in future years, will become a real beauty spot.

There is a large acreage of similar lands in the western, northern and southern limits of Escanaba, which could well be acquired and dedicated to a movement such as the city of Gladstone has now inaugurated.

DECENCY

EVERY once in a while some earnest seeker after truth makes the surprising discovery that it really pays to treat workingmen like decent human beings, finding to his amazement that the employer who gives his workers more than they expect is bound to profit by his generosity.

Of course, we all ought to know this, and be sure of it, without being told. But we have a fondness for cynicism, and we don't assimilate truths like this unless they are drummed into us.

An English merchant sailor named Lennox Kerr recently spent a year and a half wandering about the United States. When he got through he wrote a book, "Back Door Guest," just published, telling of his experiences. He found many things in this country to surprise and interest him; but nothing hit him quite such a wallop as the contrast between sailors on the Great Lakes' steamers and sailors on the ocean.

Kerr, a veteran salt water sailor, made several trips on a lakes ship and thought he had tumbled into sailors' heaven.

He found the lakes shippers treating sailors as if they were decent, self-respecting human beings. Crews' quarters were clean, comfortable and commodious, as compared with the dark, dirty, smelly forecastles of salt water ships. The food was beyond praise, as compared with the starvation menus of most ocean steamers. Ships' officers treated their men with consideration, stead of wrapping themselves in the dignity of the sea's traditional caste system.

In short, he found that whereas the ocean sailor ordinarily is given bad accommodations, bad food, callous treatment and illusage in all its forms, the lakes sailor is treated with kindness, consideration and respect.

Then he sums up the results.

First of all, it pays dividends. The lakes shippers have an eight-months season and face heavy railroad competition—and profit as heavily as salt water shippers if not more.

In the second place, they get more work out of their men. The lakes sailor works longer hours and does a better job while he is at it than his salty brother. He is infinitely more sober and quiet. He saves his money, is utterly dependable and—in Kerr's words—"is the ideal worker, physically, morally and in intelligence."

In short, the Great Lakes way seems to this sailor to be not only kinder and more humane than the salt water way, but also much more intelligent.

We ought to know all of this without being told, of course. But we don't. It actually surprises us to learn that even sailors—traditionally a graceless class—will respond to decent treatment. Which, of course, only indicates that we are still a trifle blind.

SPIRIT OF PEOPLE

EVERY city, town, village and hamlet as well as every person, longs to achieve.

Some communities are blessed with attainments in art, music, the drama, and with great institutions of learning. Others point with pride to a highly developed industrial and commercial system. Many stress the beauties and wonders of natural resources or majestic scenery. Climate and living conditions have been featured in community advertising.

But there is one thing all may possess in common. It is the possibility that any community may distinguish itself. That possibility is the spirit of the people, or what is called community spirit.

The "kingdom" is within us. Now is the time for a greater sense of responsibility and more reason for co-operation in the general welfare. There is little need to wish for more industries, more trade and more population unless all of us work together in common purposes to gain commonly desired objectives.

The hope for too quick a result is not practical. But the most reassuring fact is that in whatever degree our people co-operate in the public interest the community will proportionately move forward; and in whatever degree the spirit of our people fails, ground will be lost.

BIRTH RATE

OFFICIAL French government figures show that France's death rate last year exceeded her birth rate. The death rate is slowly rising, while the birth rate continues to go downward at an amazing rate.

Considering that fact, one is led to wonder; just how many decades is France going to be able to maintain her position as the chief continental power in Europe? Across the Rhine lies Germany—disarmed and impotent, for the moment, to be sure, but possessed already of a much larger population than France, and displaying a high birth rate that continues to swell its population each year.

How long can a shrinking population maintain its dominance over a rapidly increasing one? Ask yourself that question, if you think the present international setup in Europe is to last indefinitely.

And perhaps many who marry in Crown Point wind up in Kansas City, which boasts the largest spat works west of Chicago.

Talking about taking a licking, we read that 18,000,000 postage stamps were used in the United States last year.

The trumpeter crane of Venezuela is trained by the natives to guard sheep. All day it keeps an eye on its charges, and at night brings them back safe to the fold.

Anniversary

SAN FRANCISCO FIRE

On April 18, 1906, the most serious earthquake disaster that has occurred in the United States took place at San Francisco, when more than 500 persons lost their lives and property was damaged to the extent of $200,000,000.

The first shock, felt shortly [illegible] m., caused such a swaying of the ground as to wreck buildings and break gas and water mains. Because of the impairment of the latter it was impossible to control the fires which soon broke out.

The fire raged in the heart of the business district for three days. Dynamite and artillery were employed to destroy buildings to prevent the spreading of the fire and ships from the navy were summoned to battle the flames from the water front.

Despite the great number of deaths there was no great amount of privation or suffering because relief measures were taken immediately by leading citizens. In addition, Congress gave prompt aid and relief funds were liberally subscribed all over the United States.

RADIO

Friday, April 18.

The German Requiem, which gained general recognition for its composer, Johannes Brahms, will be heard during the special Good Friday program to be broadcast over an NBC network at 6:30 tonight from WJZ and other stations.

Quotations

"Drink no intoxicating liquors: in these days of keen competition whisky and business won't mix—you can't do both."
—Captain Robert Dollar, ship owner.

* * *

"I don't believe in men waiting until they are ready to die before using any of their money for helpful purposes."
—George Eastman, kodak millionaire.

* * *

"The long skirts are just fine—they give a teacher dignity in the classroom, and you won't confuse her with the pupils."
—E. Ruth Pyrtle, educator.

* * *

"The unusual woman may be able to compete with men, but the average woman neither has the ability nor the desire to do it." —James Oppenheim.

MURDER BACKSTAIRS

(By NEA Service) By ANNE AUSTIN

CHAPTER XLI

And she was. The summons to the library telephone came just as the young detective was about to enter the drawing room at the dinner hour.

"Hello! Dundee? . . Captain Strawn . . . We've got that fine young friend of yours. . . Yeah. Drunk. More than a little drunk. What had I better do with him? Book him on a charge of drunkenness, so we can keep an eye on him?"

* * *

Dundee chuckled with relief. "Do me a favor, Chief. Have one of the boys escort him to a Turkish bath, boil the booze out of him, and then send him home. And I'd appreciate it if his escort left him at the gates, to toddle in alone. I'll try to keep his family from knowing what he's been up to—just to preserve the peace, you know."

But the skillful half-lies with which Dundee quieted George Berkeley's suspicions as to his son's absence were told for Gigi's sake, not for Dick Berkeley's.

As soon as possible after the serving of coffee in the drawing room Dundee made his escape. It lay heavy upon his conscience that he had not yet finished transcribing the thick sheaf of notes he had made during that long, grueling day.

After typing steadily for an hour and a half he had finished his task, with the exception of making a summary of his discoveries leading up to the conclusion, clinched by Gigi's reluctant admissions, that Mrs. George Berkeley was a perfume addict.

Suddenly he sat back and stared at the last two condensed sentences he had typed:

"Mrs. B. purchased seven bottles perfume September. Found five empty perfume bottles concealed in Mrs. B.'s clothes closet."

Seven. Five. . . Where were those other two bottles? Where, also, were the bottles, once filled with expensive perfume, which Mrs. Berkeley had undoubtedly brought with her from Europe?

"Maybe she drank it all before landing and chucked the bottles overboard," Dundee decided. "Her breath must have reeked with it or her fellow-passenger, Crosby, would not have got wise to her habit. But—those other two bottles. If she was afraid or ashamed to have the chambermaid see the five I found—" He did not finish the sentence, but drummed scowlingly on the desk. "Gigi knew. Others knew. Why not Dick? And Dick dared not buy bootleg liquor on pain of being disinherited!"

He sprang to his feet, overturning the chair. He let it lie and dashed through the bathroom to Dick Berkeley's bedroom. It took him less than five minutes to find what he was looking for. The boy was not so ingenious at concealment as was his mother.

But when his search was finished it had yielded him not two but four empty perfume bottles. The tiny, gold-embossed label of Mrs. Berkeley's favorite department store was pasted on the bottom of two of the expensive flasks, but the other two bore no mark to identify their retail dealer. Obviously cheaper stuff, these last two. Dick had gone shopping for himself!

* * *

It was not surprise or shock at his discovery which made the young detective sink weakly into his own chair after he had added Dick's four bottles to Mrs. Berkeley's five and turned the key of the desk drawer. It was natural enough that Dick, learning somehow—probably in the same way that Gigi had—of his mother's strange vice, should succumb to the temptation of adopting that vice. Curiosity at first, perhaps. At any rate, Dick Berkeley was now a perfume addict.

It was the startling new vista which that discovery opened to the detective which made him dizzy.

Dick Berkeley had stolen perfume from his mother at least twice. Last night Dick had seen his mother receive a gift of at least five ounces of perfume from Seymour Crosby.

Half drunk at the time, had Dick tipsily made up his mind to appropriate the new supply before his mother could dispose of it herself? If she missed it, his mother would have good reason to suspect who the thief was and to shield him, as she must have shielded him for his two previous thefts—

"Well, here I am! And sober, after that damned Turkish bath," a sulky voice from the bathroom door interrupted the detective's cogitations. "I hope you're satisfied!"

"Your gratitude is overwhelming, Dick!" Dundee retorted dryly.

"Guess I ought to thank you," the pale, haggard young man mumbled. "Captain Strawn said you were pulling the wool over Dad's eyes. . . But I risked a whale of a lot to get that jag on, and I'll be darned if I wanted to sweat it out in a Turkish bath."

"If you were in such a funk that you needed to get stewed, why didn't you play safe and swig a flask of perfume?" Dundee asked coldly.

"Too slow, and I can't stand the thought of the stuff now," Dick retorted. Then realization

'Looking Backward'

20 YEARS AGO
April 18, 1910

Arthur Courtney White an Escanaba young man who is carving a name for himself in the theatrical profession arrived in the city this morning for a visit with his parents, Mr. and Mrs. Charles C. White, 425 So. Oak St. Mr. White has for several months been a member of William A. Brady's "The Shepherd King" company which has just closed a highly successful season. Mr. White has been filling a role of some importance with the company and has been accorded much praise by the critics of the press for the excellence of his work.

At the annual meeting of the Richter Brewing Co. held yesterday afternoon the following officers were elected for the ensuing year. President Richard Hoyler, vice-president, Adolph Berschorner, secretary and general manager, A. G. Crose, treasurer, John Ritcher, the old board of directors was re-elected. It consists of the officers named and Joseph Charlebois Sr.

Among the students who graduated from the Marquette Normal School at the close of the winter quarter was Miss Alice Stegath of this city. She is the daughter of Mr. and Mrs. Charles G. Stegath, 429 South Campbell street.

Notice has been given that on May 6 a civil service examination will be held of applicants for the position of fireman at the new postoffice building. Applications may be filed with W. I. Brown, civil service commissioner at the local postoffice before 4:30 p. m. May 6. The position of fireman will pay $660 per year to its holder.

Escanaba friends of Rev. F. X. Barth of Stephenson will be interested in knowing that Rt. Rev. Bishop Muldoon of Rockford, Ill., has engaged Father Barth to conduct a retreat at the cathedral at Rockford this week.

Health Tips

BY DR. MORRIS FISHBEIN.

The most dangerous and most crippling of disorders affecting children today is infantile paralysis. The health section of the League of Nations finds that this disease has an average death rate for all forms from 12 to 13 per cent.

Apparently the virulence of the germ increases during epidemics and more cases are likely to be found and properly diagnosed at that time than in the absence of epidemic conditions.

Apparently the disease does not frequently attack people living in hot countries. In the north the disease reaches its highest point in August and September, and in the southern half of the world between December and May.

The exact cause of infantile paralysis has not been determined, although its manifestations in the body are so definite as to be fairly easily recognized. It is believed by many that the organism which causes the disease exists in nature and attacks the human being when conditions become right from the point of view of temperature, barometric pressure, and similar factors.

It has been urged that the organism can be transferred through milk or through water, but even this evidence is not well established.

In practically every instance there seems to be a relationship of the contact with the patient with someone who has had the disease or with a member of the family of someone who has had the disease. However, in many instances the disease occurs in families in which none of the other members of the family get infantile paralysis even thoug[h] exposed.

It is quite certainly establish[ed] that a virus is responsible f[or] the disease, that this virus is lo[-]cated in the upper portions [of] the nose and throat, and that [it] has a specific affinity for th[e] nervous system which causes [it] to produce the paralysis that [is] the most significant symptom [of] infantile paralysis.

Since neither the exact cau[se] of the disease nor the means [by] which it is spread is definite[ly] known, the prevention of in[-]fantile paralysis is an extreme[ly] difficult problem. Attempts ha[ve] been made to inoculate again[st] the disease with a form of th[e] organism that has been alleg[ed] to have a causative relationsh[ip] and with the blood of perso[ns] who have recovered from th[e] disease.

At present, the latter meth[od] seems to be the one most in fa[vor] or as a means of preventing t[he] disease or as a means of contr[ol] in cases when seen early.

HEADS VILLAGE AT 22

Manistee, Mich. — Arch M[ar]shall, Jr., is one of the young[est] city officials in the United Stat[es]. At 22, he is Village President [of] Bear Lake. This is Marshal[l's] second term as president, and t[his] year he took nearly his ent[ire] ticket into office with him. He [re]ceived all but two votes in t[he] election.

DURABLE DOUGH

Paris—A Swiss scientist, M. Schoop, has announced a meth[od] of making paper money wh[ich] cannot be destroyed. His proc[ess] consists of treating the pa[per] pulp with a coating of tin. T[he] coating, applied by an atomiz[er] is broken up into minute pa[rti]cles, thus giving the paper a fl[ex]ibility and protection agai[nst] tearing and burning.

LYRICS OF LIFE

By Douglas Malloch

Copyright 1930 by Douglas Malloch

ONLY A DREAMER

"He's only a dreamer, that boy of theirs,
I doubt if he ever amounts to much."
Then they cross the street, and they climb the stairs,
And the dreams of a thousand dreamers touch.
For every turret that ever gleamed
Was made, it's true, but it first was dreamed,
And the proudest house on the highest slope,
Before it rose, was at first a hope.

He's only a dreamer, that boy of yours,
But do not worry, nor doubt, nor fear.
The boy will change, but the dream endures
For the man to build in a later year.
We must dream as boys what we do as men,
In youth we must do our dreaming then
When our faith is great and our fears are small,
Or else we never might dream at all.

He's only a dreamer, some boy of ours,
Who is dreaming now what he yet will do,
In the hearts of boys are the golden tow'rs,
In the streets of men that will yet come true.
For the greatest deed of the greatest man,
The fairest bridge, with the longest span,
Was built at first with a youngster's joy,
Was once a dream in the heart of a boy.

MUNISING NEWS

WILL ENFORCE LAWS IN CITY

Munising Chief of Police Serves Notice on Drink Parlors

This morning, Chief of Police Pelissier served verbal notice on all the proprietors of soft drink stands in the city that they must strictly observe the law in respect to the sale of intoxicating liquor. The new city administration of Munising will make an earnest effort to enforce all the laws, according to the announcement.

Mr. and Mrs. John Carlson, arrested at their home in this city last Tuesday night by Sheriff Runsat were arraigned in Justice Tracy's court yesterday, and they demanded an examination and the case was set for next Saturday forenoon. Failing to furnish bail they were remanded to the county jail.

NEW WHITE WAY

The extension of the white way authorized by the city council Tuesday evening will add fifty more street lamps to our lighting system. This will light five blocks on Superior street and one block, or a little better on Munising avenue, making 98 white way lights in all. The Michigan Gas & Electric company erects the lamps without cost to the city. These lights will be erected by the May 15. The council also has authorized the erection of 50 more street signs for intersections. This will make a total of 78 metal markers on the various corners.

Brown Denies Story Of Board Meeting; Suit Is Threatened

Munising, Mich., April 17 (Special)—Orie Brown, cashier of the First National Bank of this city, informs the Daily Press that a libel suit is very likely to grow out of the charges published in the Marquette Mining Journal regarding the stormy session of the meeting of the Alger county road commission, held yesterday. It is charged that at this meeting Road Commissioner Artibee made certain allegations in regard to purchase of a new truck, which charges reflected upon the integrity of Mr. Brown.

Mr. Brown has addressed the following letter to the Mining Journal with a request that the same be published in the Press:

"The Daily Mining Journal,
"Marquette, Michigan.
"Gentlemen:

"In view of your publication of the criminal charge made against me by a member of the Alger County Road commission, I am going to ask you to go a step further and give as wide publicity to what preceded the statement attributed to the member in question.

"A little dilligence will give you some very interesting material which will put the undersigned in a rather different light in the eyes of the public, and at the same time show you what injustice is sometimes done by the publication of sensational stories without careful investigation and the use of mature judgement.

Yours very truly,
ORIE E. BROWN."

FAMILY GETS HELP

A few days ago the Daily Press mentioned a case of destitution in this city. The mother of two children, while her husband was seeking employment, was compelled to sell her cook stove to Mr. Berkel, second hand man, in order to obtain food. She was then left without a stove to cook upon. This item attracted the attention of a kindly disposed man living in Viola, who sent a five dollar bill to Rev. Broughall, the Presbyterian minister, with a request that he handed it to the woman for the purpose of redeeming her stove. Other charitably inclined persons in the city among Catholics and Protestants also took note of the case and provided both food and clothing, so that now the family will get along all right until the time that the husband and father receives his pay check, he having, in the meantime, secured employment.

Pat Roades of St. Ignace was in the city today.

Mr. and Mrs. H. A. Wood entertain two tables at dinner-bridge last evening at their home on Chocalay street. High score for ladies was won by Mrs. F. E. Bartels and for gentlemen F. E. Bartels.

Press Want Ads Cost Little, Accomplish Much.

Alger County Folks

August A. Anderson

August A. Anderson of Chatham was in the city yesterday and today in conference with County Treasurer Hase, on tax matters. He returned home today.

August is one of the prosperous farmers and business men of Alger county, his success being due to untiring energy and a keen insight in business affairs. He was born within three Swedish miles of the village of Jacobstown, Finland, in the state of Wasa, coming to the United States in 1899, when a youth.

Paid by Fuller

The father had preceded the family and had located at Metropolitan, in Dickinson county, where he had found employment with the Ford River Lumber company, and where young August also found work in the lumber camps, on the river drive and in the saw mills. He worked eight months in the woods before he received his first pay and the check was issued by O. B. Fuller, now auditor general.

August received top notch pay, $16 per month. Others received as low as $9 per month, but in those days even $8 per month meant more than three times that amount does now. Malcolm McRae was foreman and Archie McGregor walking boss for the Ford River company at that time and August worked in old camp 5 at Sagola.

Has Splendid Farm

August and his father came to Alger county in 1902 and they bought a tract of land north of the state farm. August prospered from the time he located here and now has about 300 acres under cultivation, has a heard of 52 Guernseys, some hogs and poultry and he is the father of a family of ten children, one son, William, being a student at Houghton College of Mining and a daughter, Helen, who is married and lives in Detroit. Besides being a successful farmer August deals in real estate, engages in logging operations and finds time to take part in politics. He is one of the m[illegible] whose influence helped locate the county infirmary at Chatham, also the fair grounds. He has served on the board of directors of the fair association, has been president of the board of education of Rock River township, a member of the Alger county road commission and was a member of the poor commission for a period of fifteen years.

FUNERAL HELD

The funeral of Mrs. Elizabeth Knox, pioneer resident of Wetmore, was held yesterday afternoon from the home, Rev. Broughall conducting the services. The pallbearers were Mrs. Knox' three sons, John, Stephen and James, her brother, William Clark, and her son in law, William Swenor, and her nephew Walter Knox.

Ed. Hall purchased a team of horses from D. S. Stites. Mr. Stites got them from John La Vine, Manistique.

Radio Utilized to Send Fire Alarms

Detroit, April 16, (AP)—Although police radio systems in larger cities have become rather common, Dearborn, a suburb of Detroit, will become the first municipality to broadcast fire alarms to engine houses, if tentative plans now underway materialize.

The plan, Mayor Clyde Ford explains, contemplates the use of a short wave system, possibly with equipment now in use by the Ford Motor Co., or with our own equipment. The broadcasting station would be in direct touch with the telephone exchange and with receiving sets in the fire engine houses.

Thus alarms would be telephoned and broadcast. Mayor Ford believes a material saving of time in receiving alarms would result with a considerable saving in maintenance of costly alarm equipment now in use. A long and thorough test of any new system will be made before the present system is dispensed with, he added.

Mayor Ford also revealed that Dearborn police are experimenting with a type of broadcasting and receiving radio sets to be installed in police automobiles. Such sets, he said, would double the value of police radio.

"There seems to be no reason why radio-equipped police cars should be limited to receiving," he said. "Radio is successfully broadcast from airplanes, railroad trains and other vehicles, so the problem of sending from police cars should be easily solved."

Belle Mc Lean, Dorothy Gighens and Mary Mc Lean motored to Manistique Saturday evening.

Leonard Blanchard went to Seul Croix Monday where he will be employed.

She Lost 19 Pounds of Fat In 27 Days

During October a woman in Montana wrote — "My first bottle of Kruschen Salts lasted almost 4 weeks and during that time I lost 19 pounds of fat—Kruschen is all you claim for it—I feel better than I have for years."

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat."—Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

If you want to lose fat with speed get an 85c bottle of Kruschen Salts from Peoples Drug Store or any live druggist anywhere in America with the distinct understanding that you must be satisfied with results or money back.

Chief of Police John J. Tolan received a message Thursday telling him of the birth of a nine pound son to Mr. and Mrs. Gabriel J. Tolan of Milwaukee. Both the mother, who was formerly Miss Katherine Harris, and the baby are doing nicely. Mr. Tolan, well known newspaperman, is with the Milwaukee Sentinel.

Word was received Thursday morning that Marvel Nolden, who submitted to an operation Wednesday in a Minneapolis hospital, is getting along as well as may be expected. His mother, Mrs. Peter Nolden, 329 North Fifteenth street, who was called to Minneapolis by his illness, is remaining there with him for another week.

Mr. and Mrs. P. J. Garrity, of this city, their daughter, Miss Dorothy, a teacher in the Milwaukee public schools who has been visiting at her home here for the past week, and Mr. and Mrs. Alex Smith are leaving this morning by motor for Milwaukee where they will visit at the home of Mrs. Garrity's mother, Mrs. Stephen McCarthy. Miss Dorothy will resume her teaching duties the first of the week, while Mr. and Mrs. Garrity and Mr. and Mrs. Smith will return to Escanaba after a visit in Milwaukee.

Mrs. Ray O. Olson, 606 South Ninth street, and her son, John Scott, left Wednesday afternoon for Sault Ste. Marie, Mich., where Mr. Olson submitted to an emergency operation for relief from appendicitis at War Memorial hospital Tuesday morning. Mr. Olson is getting along nicely following the operation. Mrs. Olson and her little son were accompanied to Sault Ste. Marie by Mrs. Ralph Layman, 301 South Thirteenth street, who will visit with her sister, Miss Marie McGuire, a teacher in the public schools there.

Summer Frock

For summer days, Patou created this informal dress of dainty gray and blue wool voile, with unpressed pleats stitched only a short distance below the belt, to give the new long-limbed effect. The hat is blue felt.

Washington Likes Shoes Of Green

Washington (AP)—Two-toned green shoes are gaining favor as spring advances. Of medium heel, with eyelet holes punched in the toes, they are suitable either for street wear or sports. Bronze kid slippers, worn in the evening, are ornamented wtih small bows of bronze metal.

Blossom Time Cast Showing Fine Progress

Rehearsals for "Apple Blossom Time," the musical comedy revue, which is being staged the evenings of April 23 and 24 under the sponsorship of the Daughters of Isabella, Trinity Circle, No. 362, are progressing in first rate style, and with a general rehearsal showing the entire cast, principals and members of choruses in readiness to give an entertaining performance.

In addition to the play which has a charming story, attractive settings and costuming, as well as songs, dances and chatter, all of which are clever, there will be specialties, an impersonation of Al Jolson by Lawrence Girard; tap dancing by Orville Valind and William Pratt and Marilyn Miller, dances by Gretchen Phelps.

The cast of talented Escanaba men and women includes Clayton Todd, Dr. Gordon J. Gleich, Robert Gasman, George Grab, Frank Hirn, Misses Jessie Groos, Muriel Van Gall, Zita Wegner, Dorothy Gilbert, Agnes Ederer, Ethel Barth and Mrs. Elizabeth Gilmore.

William Dormady is director.

Tickets for the play are now on sale and may be obtained from any member of the organization.

Proceeds of the play will be used for welfare work.

Church Events

Pantry Sale.

The Ladies' Aid society of the Swedish Mission church is holding a pantry sale Saturday, beginning at 9 o'clock in the morning, at the Delta Grocery store, 1210 Ludington street. There will be a fine line of home baked goods and a good patronage is desired.

* * *

Early Morning Service.

An early service will be held Easter Sunday morning at the Swedish Baptist church, beginning at 6 o'clock, instead of 6:30 o'clock as previously announced.

Rev. John Hugo, pastor, will be in charge.

Sunday school classes will meet at 9 o'clock Easter morning instead of 9:45 o'clock and there will be a special song service at 7:30 o'clock in the evening.

* * *

Union Service Today.

A Good Friday union service of the Swedish Mission, Swedish Baptist and Swedish Methodist churches will be held this afternoon beginning at 1:30 o'clock at the Swedish Methodist church. Rev. John Hugo, Baptist pastor, will deliver the sermon, speaking on "Calvary."

* * *

Concert Here.

Rev. K. A. Swanson, talented Swedish musician, will appear in concert here Wednesday evening, April 23, at the Swedish Mission church. The concert program will be announced later. Rev. Mr. Swanson, an excellent singer, pianist and organist, appeared in concert here recently at the Bethany Lutheran church.

Miss Myra Mason's Talk of Wide Interest to Students of Nature

Miss Myra B. Mason's talk on wild flowers and butterflies given Wednesday afternoon at the conservation program meeting of the Escanaba Woman's club, at the First Presbyterian church, is of unusual interest to students of nature.

"Now is the time all lovers of the woods and thinking of birds and flowers, so I give you here a few of our lovely flowers that you may find in your own outdoors," Miss Mason said.

"The first we have is of course, the arbutus, and there are two varieties, here, the pink one and the white, another. How many of you know that with the arbuts comes the earliest of our violete (viola arenaria) a sma:r plant, but covered with tiny blue or violet blossoms, growing on the plains with the arbutus. Then come the lovely trilliums, the grandi floram and also the nodding trillium and with them come blue, yellow and white violets, Dutchman's breeches and squirrel corn from the same family as the bleeding heart of our gardens; the yellow bellwart, the rue anemone, a lovely little flower, lavendar tinted, in a bunch at the top of a short stem above a whirl of leaves, like maple leaves, the hepatica, March marigold or cowslip, the dog toothed violet which is really a lily and the only member of the poppy family, I have found here. The lovely bloodroot, wind and star flowers, etc., all come at about the same time from the first to the thirtieth of May, with many more I haven't time to mention here.

"You will find wild roses here of at least two kinds, the wild dwarf, the national flower and the small rose, whose stem is almost without thorns. With these come many more lovely flowers, some of which grow along the roads and in the ditches and these may be picked at will as they spread easily and the ditches are cut and mowed often. Of these you may find the pale corydalix of the Dutchman's breeches family, though much handsomer, a tiny rose pink bloom, tipped with gold and pale gray green leaves; also the golden corydalix, in wet places.

"On the plains in August and July I have found many asters, golden rods, the last, in wet places, of three species, the blazing star, or gay feather, columbine, the red one, Canada anemones, a spiria, the meadow sweet. The last-three like rich moist soil.

Orchids

"We also have a number of orchids, and here are some of them: pink and white lady's tresses, a small head of fine flowers found along the bay shores; the fringed orchid, the lady slippers in pink and yellow and also the showy pink and yellow moccasin flowers, whose big difference to look at is that the leaves are in a cluster on the ground with a bare stem on the flower, while the slippers have leaves all the way up the stem; the arethusa, or Indian pink. All these are found in swamps and are getting scarce, so please be careful not to pick many or all in a place or pull up roots.

"Our lovely flowers are one of the big attractions of our county, so we should care for them.

"We also have several vines that flower here, the white clematis, the hairy yellow honeysuckle, the bittersweet which is getting scarce since so many people have injured the vines.

"Of other plants of the damp places are the pyrolaceae, or princess pine, thin leaf and round leaf pizeola and Indian pipe, the last is a parasite; heather, the arbutus, sheep laurel, bealberry, labrador tea, creeping snowberry, winter green, swamp laurel, the fringed gentians, painted cups, blue toad flax, turtle head, garandia, butter and eggs, which is also toad flax, harebells, lovelair, mint, upright morning glory, other violets, mustand, cresses, clover, peas, waterlilies, and wood lilies—these are just a few of our lovely flowers and I hope anyone going to the woods or fields will have a care when picking not to tear vines, break shrubs, take all of a plat or pull up roots.

Butterflies

"I have here butterflies and moths I have collected myself in this county of Delta with the exception of three southern ones, the giant, the turner and the green clouded swallowtails. All others may be found here in this county and eleven of the moths, beside many which I have not with me.

"The earliest is the mounting cloak and the American tortoise shell, both tortise shells. I have seen them both already this spring. Our largest, and I think the most handsome, is the monarch, all in brown and black, one of the regal butterflies. Then there are the tritillareget, the sulfert, the angle wings, the meadow, brown, the banded purple, the red admiral and painted lady, the Buckeye, the eight spotted, and these are just a few.

"The moths are night-flyers and so are not often seen except when one looks for them with a light. The largest is the cecrapia, six inches across the wings, gray with pink and clay markings, the green and lavendar luna with long trailers, the poliphemus with windows in its wings, a tan moth, the tiger moth and many more which may be found by anyone who really looks for them."

The Spanish government is planning to encourage the national production of motion pictures by financial assistance.

Fashion Plaque

THIS SMART model of black panamalaque is of American design. The bowknot caught to the crown with buttons and buttonholes of the straw is of red pique.

Social - Club

Coronation Ball

The Fraternal Order of Eagles is entertaining at a Coronation ball the evening of Thursday, April 24, at the Eagles' hall. Johnson's Wolverine orchestra is playing.

* * *

Birthday Anniversary

Mrs. August Bohm was pleasantly surprised Tuesday evening at her home, 1012 Second avenue south, on the occasion of her birthday anniversary.

Both five hundred and bunco were played with the following prize awards:

Five hundred—Mrs. E. G. Carlson, first; Mrs. Charles Anderson, second; Mrs. Sundalius, third.

Bunco — Mrs. Frank Rudiger, first; Mrs. Fred Rudiger, second, and Mrs. A. LeDuc, third.

A delicious lunch was served after the card contests.

Mrs. Bohm was presented with a beautiful gift.

* * *

Card Party

The committee in charge of the card party, planned by the Junior Holy Name society of St. Patrick's church, announces that the date of the party has been changed form April 23 to April 30. At the meeting last evening plans were drawn up and the change was decided upon because of a conflict with the show, "Blossom Time." Tickets have been printed and will be placed on sale sometime over the week-end.

The society will hold a short meeting in the parish hall Monday evening. The meeting will begin promptly at 7:15 p. m. and will adjourn at 8 o'clock. All members are requested to attend, as plans for the card party will be discussed.

Teachers Are Leaving for Easter Visit

The annual Easter vacation which starts today in the Escanaba public schools is seeing the departure of a number of teachers in the various schools whose homes are not in Escanaba.

The vacation period is extended through Monday in deference to this group of instructors, permitting their remaining at home for Easter Sunday with ample time to make the return trip to Escanaba in time to start teaching Tuesday morning.

Members of the Escanaba high school faculty leaving are:

Miss Anna Jackson, who goes to Ironwood; Miss Helen Shipley, Iron Mountain; Miss Edith Martinson, Wakefield; Miss Nina Ley, Lake Linden; Miss Marie Bezold, Milwaukee, and Miss Virginia Hulbert, Madison.

In the Franklin school, there is Miss Edna Schrandt who will spend the vacation at her home in Marquette; Miss Ruth Jewell who goes to Rhinelander; Miss Julia Parsons, Ishpeming; Miss Marie Lucia, Green Bay, and Miss Rilla Christian, Iron Mountain.

The Webster school teachers leaving for their homes are: Miss Myrtle Beatson, Spalding; Miss Aila Hikkela, Hancock; Miss Mary Darrow, Omro, Wis.; Miss Geraldine Buhr, Marion, Wis.; Miss Muriel Van Gaal, Oconto; Miss Catherine Smokovitz, Vulcan, and Miss Vide Kuentze, Green Bay.

The Barr school has the following leaving: Miss Helen Sesing, Chassel; Miss Alice Vegrot, Manitowoc; Miss Margaret Wilson, Ontonagon, and Miss Marie Raher, Iron Mountain.

Jefferson school instructors are all remaining in the city.

Favorite Recipe

Betty Ann

Mrs. George F. McEwen makes a nutbread that always evokes that tribute to successful baking, "Will you please let me have that recipe?" Her recipe, which is one you will surely want for your Easter baking, is as follows:

Nut Bread

One cup chopped walnuts.
Four cups flour.
One cup milk.
One cup water.
Three-fourths cup sugar.
One teaspoon salt.
One egg, well beaten.
Four teaspoons baking powder.

Stir together with a spoon. Put in pans (this amount will make two loaves) and after it has raised for twenty minutes in a warm place, bake for half an hour.

Mrs. George F. McEwen,
406 Ogden avenue.

This week is "Clean-Up Week" at Metropolitan.

Keep your eye on the ball

Golf balls cleaned with Kitchen Klenzer are easy to see and easy to find

"Successful laundering, a *matter* of information, *not of* income"

Mrs. Charles H. Chadwick

209 Lake Shore Drive

—Versatile, gracious, charming . . . a vivid personality whose broad understanding and sympathy have given her a unique position in the new profession of social work. Most of her days are spent with the maladjustment problems of the underprivileged. She is a director on many philanthropic boards in Chicago as well as nationally. But that is only part . . .

From the tip of her Reboux hat to the toe of her Marouff shoe, she is contemporary. A traveler of discrimination, she is as familiar with London's Mayfair, the Faubourgs of Paris and Calcutta's Serang as she is with Chicago's Gold Coast.—A modern woman whose life is enriched by many interests, but always directed by intelligence.

"—after many paths of adventure we have adopted American Family Flakes"

(*Signed*) *Audrey Chadwick*

If you want to know the efficient way to get something done — from putting over a big charity drive to solving a problem of household management or domestic science, you are certain to get a quick but well-considered opinion from this dynamic social worker. Thus in speaking of the care that should be given to costly articles of clothing, Mrs. Chadwick has this to say:

"The successful laundering of beautifully colored fabrics, fine laces, georgettes and linens is a matter of *information*, not of *income*. After many paths of adventure, we have adopted American Family Flakes in the laundry and kitchen, because it saves time, is economical, safe and pure, doing the household soap-and-water tasks with efficiency."

FOUR FLEE JAIL IN IRON COUNTY

One of Fugitives Former Escanaba Resident, Police Believe

Officers at Escanaba and other cities in this portion of the peninsula were advised to be on the lookout yesterday for four men who escaped from the Iron county jail at Crystal Falls early Thursday morning. Information was received from Iron Mountain at 11:15 a. m., giving the following description of the fugitives:

Charles Van Trova, 19, weight 145, brown hair, blue eyes, medium complexion, Polish descent. Burglary.

Joseph Van Trova, 17, weight 140, height 5 ft. 10 in., dark slim, brown hair, blue eyes, brother of Charles, wore blue overalls. Burglary.

Clarence Plank, 26, weight 155, height 5ft. 6 in., brown hair, brown eyes, dark, stocky build, wore jumper, dark trousers, dark grey cap. Breaking and entering.

Ivan Monhead, 24, weight 180, height 6 ft., brown hair and eyes. Family formerly of Escanaba, and believed to have brother in this city. Breaking and entering.

Woman Seriously Injured In Fall

Mrs. E. A. Valentine, 71, fractured her left hip yesterday afternoon in a peculiar accident which occurred in the basement of her home, [illegible]08 South Tenth street. She had gone into the basement to do some work and was down there a much longer time than seemed necessary. Lillian Nelson, who was working in the Valentine home at the time, decided to investigate and she found Mrs. Valentine lying on the floor, her hip fractured.

She immediately summoned an ambulance and Mrs. Valentine was taken to St. Francis hospital where it was found she was suffering acute pain and severe nervous shock. The hip is in the process of being set but no visitors will be allowed for a few days at least.

Just how the accident happened is not known as Mrs. Valentine was not able to explain. It is believed, however, that she tripped on something while in the basement and fell to the floor, thereby causing the fracture.

GLANDULAR INFLUENCE.

San Francisco — Dr. Arthur Reynolds, after a two-month survey of San Quentin prison, has advanced the following causes of criminally-inclined men: Murderers exhibit oversecretions of the thyroid gland; forgers exhibit undersecretion of the pituitary gland, and every social misfit displays malsecretion of some gland.

GARDEN NEWS

Garden, Mich., April 17. (Special).—Local farmers and farmerettes are making preparations for their poultry raising activities for the coming season. The first shipment of baby chicks to be received here this season by mail was a consignment of white leghorns which arrived here Friday for Mrs. Idah Thill of Fayette. The practice of purchasing baby chicks is increasing rapidly. Last year many thousands of these were delivered to local farmers through the Garden Post Office.

William Winter Jr. has moved his family to his summer home at Van's Harbor. They have spent the winter months in town.

Paul Lamkey started out to make a fire in the yard surrounding his residence at Van's Harbor, burning dead grass and other rubbish. He had been working with it for some time when an urgent call came to him to attend some business in town. Feeling sure that every thing was safe, he left for town. On his return, he casually went into his wood shed and saw a gaping hole in one of the walls of that building. He quickly realized that the hole had been burned but there was a mysterious air about it until a few minutes later, a neighbor informed him that the fire, which he had left smouldering, had travelled to the wood shed and done the aforementioned. The kindly neighbor happening to be near by and noticing the unattended fire, was considerate enough to go over and extinguish the blaze, which if left, would in all probability have destroyed all the Lamkey buildings, and possibly some of the near by buildings. Mr. Lamkey has been for a number of years, and still is, a member of the Garden village fire department. Had it not been for the timely help rendered by neighbor McLeod, he would surely have had to have appealed to his department for help which perhaps would have arrived too late to save the building.

The fire was burning at Van's just about the time that fire from a grass fire, destroyed the church at Cooks last week. It has been a warning to all to use extreme care on account of the fire hazard. Since Thursday, large areas of land in the Garden district have been burned over in order to minimize the danger of destruction to property.

Peter Deloria of Escanaba arrived here Thursday and spent the week visiting at the home of his father.

Weslay Horning, until lately in the employ of the Hennessey Transfer Co., of this place, started in Monday in the employ of the Delta County Road Commission. It was uncertain at the time of writing just where he would be assigned.

Mr. and Mrs. Louis Llondo and family, who are occupying their farm here East of the town, are quarantined there on account of Mrs. Llondo suffering an attack of small pox. She has no idea as to where she was exposed since she remained largely at home since she returned there after the birth of her baby in an Escanaba hospital several weeks ago.

Dr. John Lown, Health Officer for the Garden and Fairbanks townships, immediately made plans to vaccinate all the school children in the Garden township. Children in the Isabella school, Garden township, had already been vaccinated. The other four schools in the township were visited Tuesday.

An eight and a half pound daughter was born to Mr. and Mrs. Ernest Plante at their home at Puffy Creek shortly after the noon hour Saturday, Dorla Maria and mother are doing fine.

Shortly before the midnight hour of the same day, a ten pound daughter was born in town to Mr. and Mrs. La Bombard. Peggy Joyce and mother are both doing fine. The local physician was in attendance at both cases.

Mr. and Mrs. John McKaye and daughters Lila and Dorothy of Escanaba were guests at the home of Mr. and Mrs. Theodore Hazen Sunday.

Mrs. Fred Olmsted, Sr., and Mrs. E. Brown of Escanaba were guests at the home of Mrs. William Winter, Jr., and other friends in Garden Sunday.

The picnic season has opened here. Charlie Bush and a party of friends of Manistique were at Van's Harbor Sunday for what is believed to be the first outdoor picnic of the season. The ice was not yet out of the bay but the weather was delightfully warm in spite of the presence of so much ice near by.

Mr. and Mrs. Chester Winter, Mrs. Lela Mc Kenzie and daughter Marjorie of Manistique, Mr. and Mrs. William Winkel and family of Cooks, Mrs. Lila Hebert and son Chester of Munising spent Sunday with relatives in Garden.

S. H. Goldberg spent the early part of the week with friends in Escanaba and Daggett.

Miss Grace McPhee and brother Lawrence visited at the home of Mr. and Mrs. Fred Olmsted of Nahma Sunday.

Mrs. Anna Helgasen started in on her duties as cook at the Garden House Tuesday.

Mrs. John Feldhuzen has moved into the home of her daughter, Mrs. Harry Greene, with whom she will make her home.

The Misses Grace Dolgard and Lucille Mc Phee spent the week end at the home of the formers mother, Mrs. Sarah Dolgord of Burnt Bluff, Fayette.

S. Bennett of Daggett spent Sunday with the Goldberg family here.

Mr. and Mrs. George Peterson of Escanaba spent Sunday at the home of the latter's parents, Mr. and Mrs. August Mercier of Puffy Creek. Miss Bertha Mellon of Escanaba accompanied them here, and spent the time with her parents, Mr. and Mrs. Alex Mellon.

Germany Produces Diminutive Motors

Berlin, April 17 (AP)—Germany, the country of "vest pocket cruisers" now produces vest pocket motors about the size of a two quart bottle.

Doctor Paul Heylandt, leading German research authority on liquid gases, has supplied Max Valier, well known for his experiments with rocket cars, with a motor that is revolutionary in the simplicity of its construction.

Instead of powder or dynamite, Herr Valier now uses Doctor Heylandt's liquid oxygen rocket, which has the advantages of being safe, always under control, and supplying a continuous stream of propulsive energy.

In the front section of Valier's new rocket car is a gasoline tank, and behind the driver is a tank of the new liquid oxygen. Both elements are fed into a narrow bottle-shaped tube in the rear of the car, where they are ignited and produce such terrific recoil that the car is propelled forward.

The exploded mixture escapes by a rear aperture in this bottle-shaped pocket motor, leaving a long trail of the fire behind, but no smoke.

CITY BRIEFS

C. Harold Wescoat and Walter Arntzen have gone to Milwaukee, from where they will fly back with the Ryan Brougham plane which has been undergoing repairs.

Walter Thurston returned Thursday afternoon from a three weeks' business trip through the Copper Country to spend the Easter holidays here with Mrs. Thurston.

Mrs. Bert Leatherdale of Loyal, Wis., visited in Escanaba Thursday.

Miss Eva Beck is leaving Saturday for St. Ignace where she has taken a position.

Special Good Friday Services At Escanaba Churches Today

Good Friday will be observed in Escanaba today by a general cessation of business from noon to 3 p. m., and special services will be held in local churches during that period. The following schedule of worship is offered for this afternoon, and the public is invited to come to the church of their choice for this devotional period of Holy Week:

St. Stephen's Episcopal
Corner Sixth street and Third avenue south.

The three hour service will be held at St. Stephen's church starting at noon. This service will be a full liturgical service with seven addresses on the words of Jesus from the cross, given by the rector. There will be hymns suitable for such a solemn service. After each address there will be silent meditation, liturgical responses, and prayers. The whole service is one of sequence and definite order, working toward the great climax of Easter.

At this service, Robert Adams will sing "If With All Your Hearts" from Elijah, after the fifth word. He will sing "King Ever Glorious" from Stainer's Crucifixion, after the sixth word.

The choir will be in attendance throughout the entire service.

An invitation is extended to all who care to make this service their Lenten observance and devotion. Please enter or leave during the singing of the hymns between the sections of the service.

* * *

First Presbyterian
Corner First avenue south and Ninth street

From 12 to 3 o'clock a continuous service through the three hours when Christ made the supreme sacrifice will be held.

Worshippers are welcome to come and go at will during the period. All are invited to make a sacrifice offering equivalent to their average earning during three hours of a normal work day.

* * *

Union Services

Union services of the Swedish Methodist, Swedish Mission and Swedish Baptist church will be held at the Swedish Methodist church, corner First avenue south and Thirteenth street, at 1:30 o'clock. Rev. John Hugo will be in charge.

* * *

First Methodist Episcopal
Corner Sixth street and Second avenue south

The First Methodist Episcopal church will be open to the public from noon to 3 p. m. There will be a season of quiet meditation and prayer to be followed by song and Scriptural tracing of our Soviour's last week before His death.

* * *

Bethany Lutheran Church
Corner First avenue south and Eleventh street

Services in Bethany Lutheran church this afternoon at 1:30 o'clock. Rev. Dr. C. A. Lund will preach on the "Seven Last Words."

In the evening at 7:30 o'clock Good Friday services will be held in the chapel at North Escanaba.

A sincere welcome to all who have no other church affiliation to worship with us during these hours.

* * *

Norwegian Danish Lutheran
Corner First avenue south and Fifteenth street

Services at the Norwegian Danish Lutheran church will be held th's evening in the church auditorium at 7:30 o'clock.

The afternoon services will be held at Fox at 2:30 o'clock.

Rev. K. Knudsen will preach.

* * *

Salem Evangelical Lutheran
Corner South Twelfth street and Fourth avenue

Two services will be held today at Salem Evangelical Lutheran church. English services will be conducted at 1:30 o'clock when Rev. C. A. Doehler will be assisted by Rev. Theodore Hoffman of Gladstone.

In the evening at 7:45 o'clock the services will be in the German language and Rev. Doehler will preach.

* * *

St. Anne's Church
Corner Th'rd avenue south and Eighth street

Mass of the pre-Sanctified and Veneration of the Cross at 8 a. m.

From 12 o'clock noon until 3 p. m., prayers at every half hour and Veneration of the Relic of the True Cross.

Friday evening at 7:30, Way of the Cross in the French language.

Highway Contracts.

Sault Ste. Marie, Mich.—Following the announcement that contracts had been let for the grading and drainage structures on US-2 north of the Pine River turn comes detailed information from the State Highway Department concerning the contracts. The contracts are described as follows.

Grading and drainage structures on U. S.-2 in Chippewa county, Rudyard turn south, 3.123 miles, awarded to W. H. Gilliland, Gladwin, Mich., at $81,625.43, including estimated cost of cement in drainage structures.

RAPID RIVER

Rapid River, Mich., April 17 (Special)—Robert J. McPherson, census taker for Masonville ownship, has reported that he has already found that there are about eighty men out of employment in the township.

While that would appear to be a large number for this township, yet the situation is not so bad as it appears, because most of this number are men who have been employed in the lumber camps during the past winter and who are only temporarily out of work on account of the spring breakup. Just as soon as the camps resume operations for the summer, these men will all be back at work.

Personal Items

Roger Kirch, a student at the Universtiy of Michigan, arrived home Saturday for the Easter holidays.

Leon Johnson returned Wednesday evening to Chicago after spending several days with his parents, Mr. and Mrs. Oscar Johnson.

Miss Marion Miller went to Iron Mountain on Wednesday to spend the Easter holidays at the home of her aunt, Mrs. Fred Tramontin.

Supervisor William J. Miller attended the meeting of the board of supervisors at Escanaba on Tuesday. Upon the organization of the board, Mr. Miller was appointed chairman of two most important committees, equalization and legislative, and will serve also as a member of the finance committee.

Todd Ewald, Jr., a student at Augustana college, Rock Island, Ill., arrived home on Monday to spend his Easter vacation with his parents, Mr. and Mrs. T. C. Ewald.

Miss Margaret Hamilton, teacher in the public schools at Ishpeming, arrived here Thursday evening to spend the Easter vacation at the home of her parents, Mr. and Mrs. C. E. Hamilton.

The many friends of Mrs. E. M. Hill, who has been very ill for several weeks, will be pleased to learn that she has taken a decided change for the better. Tuesday she was permitted to sit in a chair for about fifteen minutes.

Mrs. Hector Macauley and Mrs. Fred Hoover of Gladstone visited with friends here on Wednesday.

M'ss Ruth Mooney, a teacher at Marinette, is spending the Easter recess with friends and relatives.

Highbush Blueberry Propagated On Muck Lands Successfully

South Haven, Mich. (AP)—A long and heretofore unavailing attempt to propagate the highbush blueberry has at last been rewarded with success. Stanley Johnston, superintendent of the South Haven horticultural sub-station, announced the fruit has been successfully propagated at the station at the end of five years of experimentation. The station handled 35,000 cuttings last year.

If carried to its logical conclusion, the achievement will mean a great deal to the muck land owners of Michigan. Much of this land lies idle today which could be put into the culture of the blueberry.

The highbush blueberry for many years has been a native fruit of great possibility. Its cutlure and improvement, however, have been retarded by the fact that generally an abundant crop of wild berries was found in the state, by the lack of knowiege concerning the plant's soil requirements and by the difficulty of propogation. The wild crop no longer meets the demand for the berry. Johnston's findings, he claims, have overcome the last two retarding factors.

Cost Not Large

"Propagation by cuttings of the berry bush is entirely practicable and plants can be produced at a reasonable cost," Johnston declares. "Rooting of cuttings requires a large amount of equipment and constant attention. The plants can never be sold as cheaply as some other fruits, such as currants, gooseberries and grapes, but can be made low enough to permit commercial growing."

The secret of Johnston's success with the blueberry rests in the type of frames used by him for the cuttings. He experimented with the solar, box, open and cold frames, selecting the box as the best because of its cheapness and its creation qualities. German peat was found to be the best type of soil in which to place the cuttings. The cuttings are placed in a tray inside the glass-topped box frame. In his experiments Johnston learned to disregard theories concerning the possible value of chemical treatments in stimulating rooting and the possibility that varying temperatures greatly affect propagation.

Hardwood cuttings should be taken in the early winter and stored in a cool, moist cellar when winter injury is a factor, Johnston advises. When it is not a factor, the cuttings should be taken late in March and planted directly in the propagating frames. Softwood cuttings should be taken when the plant starts its secondary growth—usually in July in Southern Michigan.

NEW GLOVES

New gloves come in three important lengths: Pull-ons of three-button length for suits; elbow length for frocks; and the above-the-elbow for evening wear.

AUCTION SALE

I am offering to the highest bidder, the following described household goods, Sale to be held at Flat Rock at my residence known as the Labelle place, across from the Catholic church, on

Tuesday, April 22nd
Sale Starts at 12:30 p. m.

1 Dining Table	1 Congoleum
6 Dining Chairs	1 9x12 Linoleum
1 Buffet	1 Ton Coal
1 Davenport	1 4-Burner Oil Stove with oven
2 Dressers	1 Library Table
1 Coal and Wood Heater	1 Side Board
1 Good Wood Range	
1 Kitchen Cabinet	

MRS. A. LABELLE, OWNER

SHOES

THEY'RE GOING FAST

Are you one of the many who has jumped at the opportunity to buy

SHOES BELOW COST

We still have good styles and sizes, and will be able to sell you shoes that will

FIT, WEAR, AND SATISFY

only if you come immediately

GAVE UP HOPE; FAMED KONJOLA CAME TO RESCUE

Indigestion Kept Man From Work — Miserable With Neuritis—Now Has Health.

MR. JACOB REHMANN

Konjola, the new and different medicine, is made to make good, and does it, as is illustrated in the case of Mr. Jacob Rehmann, of St. Charles, near Saginaw. He says:

"I had about given up hope when Konjola came to my rescue. Indigestion was followed by neuritis, and I was most miserable. I had to live on a diet of whole wheat bread. Dizzy spells were frequent, and my health was so poor generally that I missed many days from work. But Konjola solved all my health problems, for today I have glorious health. I wish I could tell the world what Konjola did for me."

The records of Konjola fairly overflow with such endorsements. Why not profit from such experiences like this. Give Konjola a chance; start today.

Konjola is sold in Escanaba, Mich. at The Peoples Drug Store, and by all the best druggists in all towns throughout this entire section

Little Green Capsule Stops Rheumatic Agony

One Every Hour for Ten Hours and Relief is Almost Certain.

Often in Five Days, Even the Tenderness Is Gone

The fame of the little green capsule, because of its canny power to speedily stop the terrible rheumatic pains that make life almost unbearable, is rapidly spreading all over America.

You go about conquering your merciless enemy in a different way—a knock-out way. You take one tiny capsule each hour for the first ten hours.

The second day, take one every two hours for 14 hours—Then take 4 little green capsules every day until every little twinge and every bit of tenderness is gone and your troubles have ceased.

The little green capsule now so much in demand from coast to coast must have a name so it is known in every worthwhile drugstore in America as ALLENRU NUMBER 2.

People's Drug Store says these little wonder-working capsules must banish all pain and torture in 5 days or money cheerfully refunded.

Prepare for your Easter Tomorrow . . . at WARD'S

A Fashion and Economy Easter for You . . . at Ward's

Fashion demands a new Easter outfit for you. Thriftiness demands economy. Therefore, you will come to Ward's, because here fashion and economy are one. Whatever you select from coats, to toiletries, it will be a saving for you!

Coats . . .

Soon you'll seriously consider a new spring coat. Whatever style or fabric your heart is set on, Ward's have it. Cape coats, flared coats. Broadcloths or silks. All sizes, and all popular colors...... $9.75 to $24.75

Dresses . . .

Lovely creations for you in prints, chiffons, and crepes. Boleros . . . capes . . . flares! Only Ward's could offer them at such low prices $8.95

Girls' Easter Frocks

Girls of 7 to 14 will look more charming than ever in these attractive cotton dresses from Ward's! Plain or prints........ $4.98

Printed House Frocks

You'll enjoy cooking your Easter dinner in a crisp little frock of printed cotton! Well made . . . trimmed with unique pockets . . . contrasting colors . . . and pipings...... 98c

Specials in Toiletries

MONETTE Sanitary Pads are soft and fluffy. Package of 12 .... 23c

Del-a-Tone Cream HAIR REMOVER. Quick action. Never fails. $1.00 size for........ 83c

Theatrical CLEANSING CREAM. $1.00 size jar, 1 pound in weight........ 83c

X-Bazin HAIR REMOVER, easy to apply. Pleasant odor. $1 size for........ 43c

Combination offer Coty's FACE POWDER and bottle of Coty's L'Origan PERFUME. Both for 79c

- Make Sure of QUALITY
- Make Sure of STYLE
- Make Sure of LOWEST PRICES

Make your Easter a joyous holiday by selecting your Spring costume here at Ward's. For here—style . . . quality . . . low price—bring you Fashions inspired in Paris, better values, and greater satisfaction!

Select Your Easter Hat From Our Straws and Felts

Will your Easter Hat be a supple straw, or a soft felt? Will it have a flattering way of turning up on one side and down on the other? Or will it have an enchanting brim that just escapes being a "poke?" You'll find these, and many others in our Millinery section tomorrow! $2.95

Rayon Lingerie For Easter Wear

Our special rayon lingerie assortment brings you new, fresh lingerie for Spring and Easter. Bloomers, Step-in Combinations, of lustrous rayon. Your choice........ 49c

Tailored Bloomers, roomy sizes ... 98c

Bodice Top Vests, form-fitting ... 79c

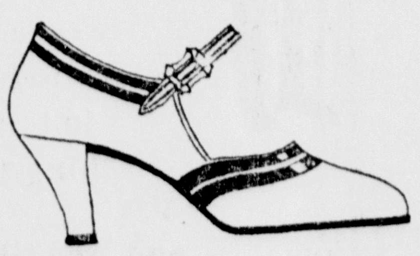
Costume Slips, non-cling models... 98c

Foundation Garments To Wear With New Dresses

This Corset will give you graceful new lines and contours. Lightly boned, laces in the back. Costs only........ $1.00

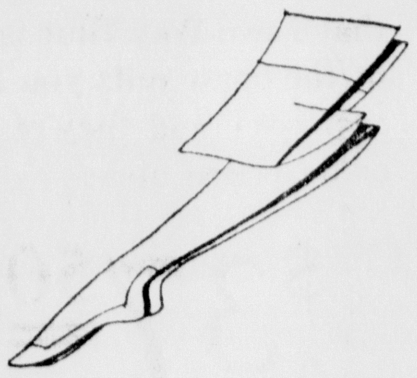
Girdle of heavy brocade, lightly boned with hook side opening........ $1.98

Corset-Brassiere Combination of striped cotton poplin. Detachable shoulder straps........ $1.00



Shoes . . .

Your feet will be smartly and economically shod on Easter if you choose from our selections. Kids . . . Patents . . . One-Strap . . . Pumps . . . Ties. Every kind of style you could possibly want is at Ward's, at a price we KNOW you'll like!........ $2.98 to $5.98



Hosiery . . .

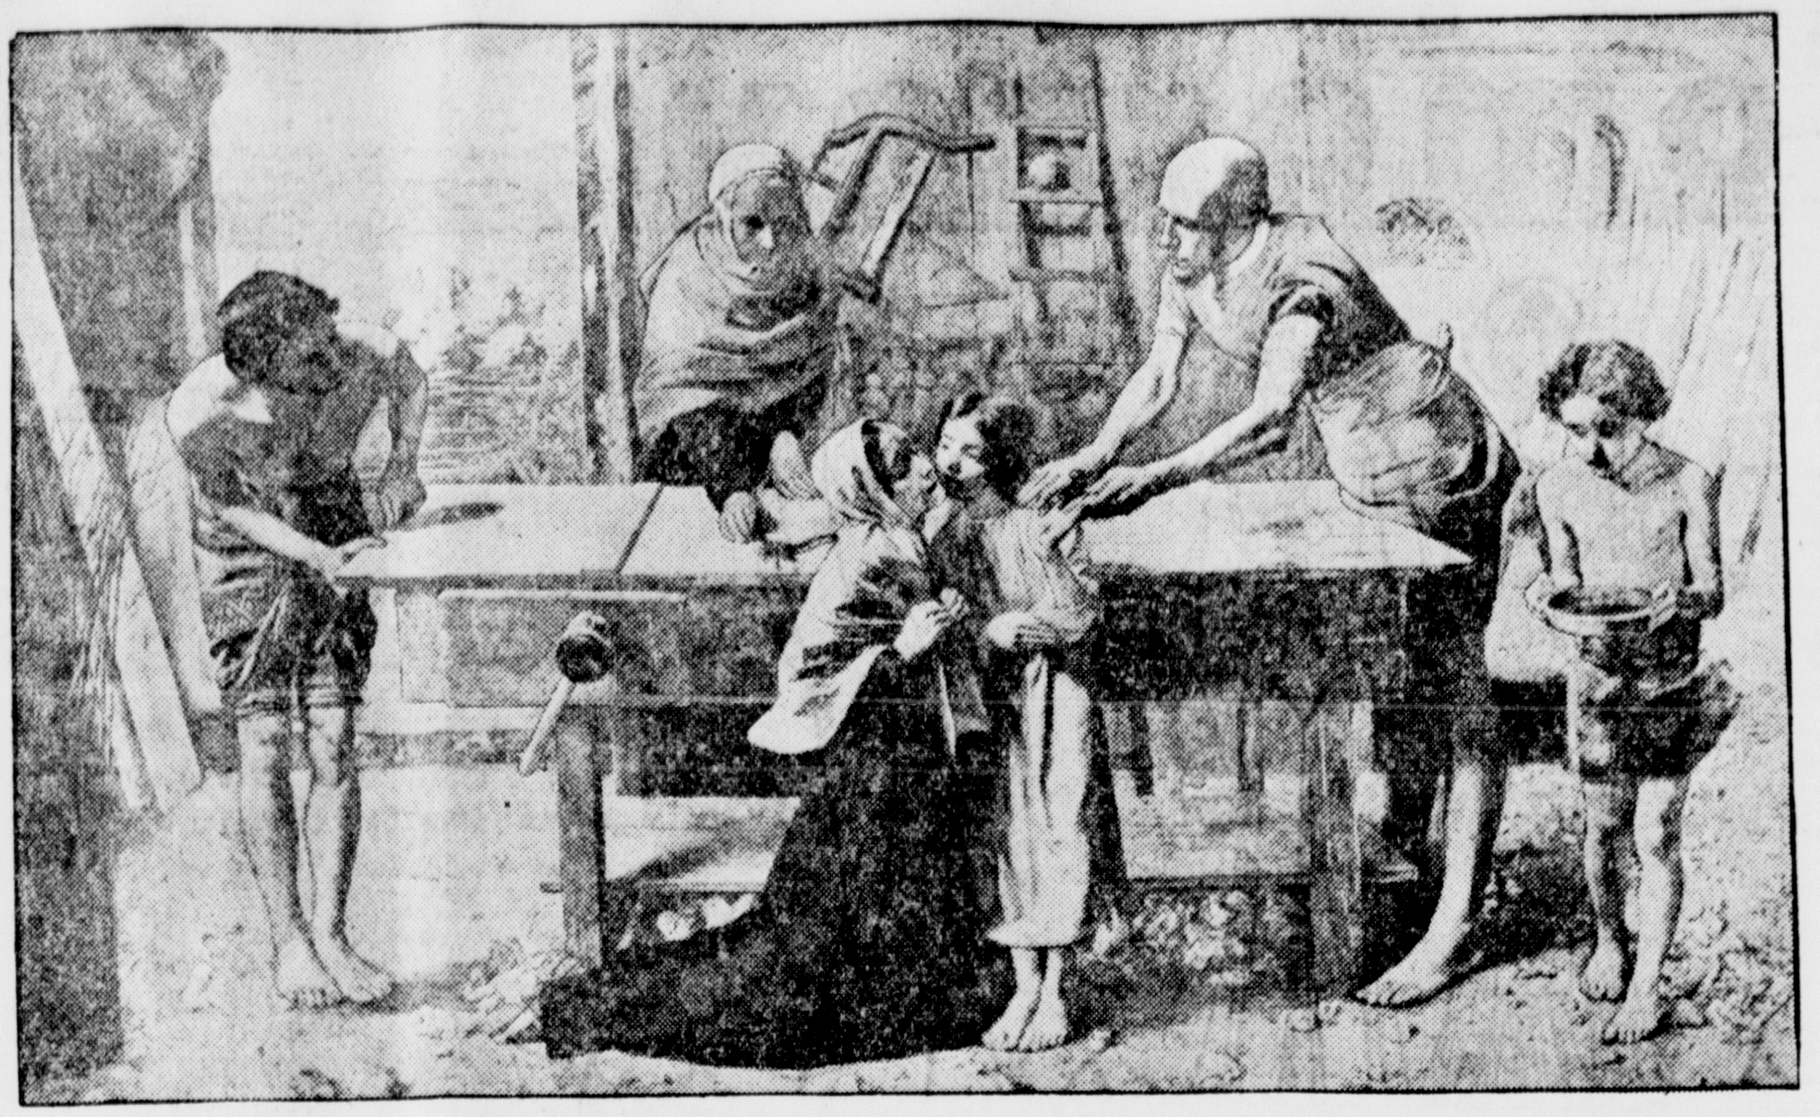
Golden Crest Hosiery—all silk from top to toe! Service weight or sheer chiffons with picot tops! An outstanding value!........ $1.00

Another Bargain! Just think! A pure silk hose; full-fashioned service weight. Only $1.49

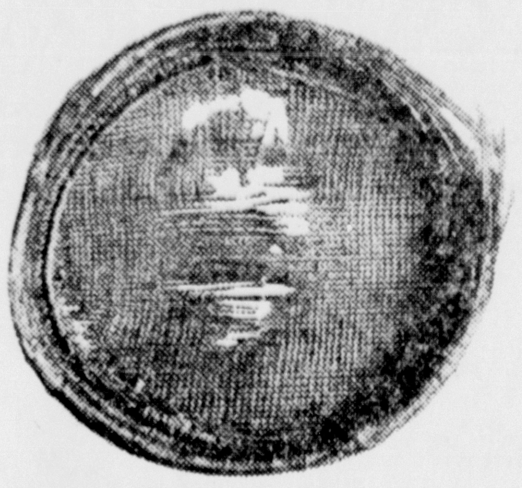
MONTGOMERY WARD & CO.

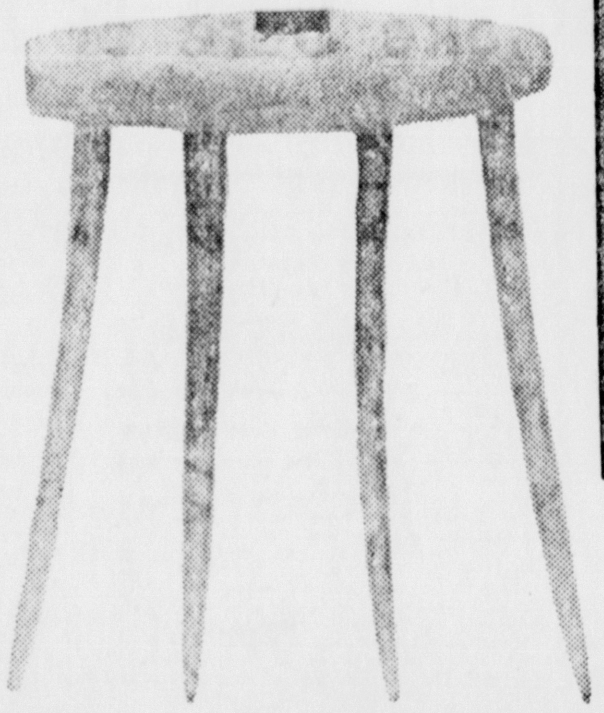
How the Holy Family Lived in Egypt

American scientists, studying relics of ancient Egyptian small towns, find household implements like those that may have been used by Joseph, Mary and the Christ Child while they hid from Herod's wrath



Sir John E. Millais' famous painting of the boy Jesus in the home of His parents. . . . Science now doubts the accuracy of the details of this picture. . . . The basket being woven at the left is correct, but the vise on the carpenter's bench, and the saw on the wall behind, may not have been invented.





Sturdy and well-made . . . a sieve of reeds to separate chaff from grain . . . and at the right, an excellent wooden pitchfork.

By FRANK THONE

INTO Egypt fled Joseph and Mary and the Child, with the mad blood lust of Herod at their heels. Once across the border they could rest, and slip into the safe obscurity of a small town, until such time as it would be possible to return to their own land. They would rent a small house, and Joseph would hunt up jobs of wood-working such as carpenters can always find, and life in exile would not be so different, after all, from life at home.

They would scarcely even be noticed as foreigners. There were no end of Jews in lower Egypt, and the arrival of another family from the north was merely something for a few bored immigration officials at the border to note down in crabbed Greek on a long-since-perished papyrus roll, before they turned back to their office gossip, forgetting the newcomers before the dust of their plodding donkey had settled in the road.

Nobody knows where the Holy Family went in Egypt, though it is unlikely that they troubled to journey far beyond the border. Nobody knows how long they stayed there. One common tradition says seven years; but since they returned to Nazareth soon after the death of Herod, it is unlikely that the Egyptian sojourn lasted that long. As nearly as can be made out now, Herod died a few months after the birth of Jesus; it may be that the massacre of the innocents was an act of madness foreboding his end.

But when all is said, this episode in the life of Christ is and will remain obscure. Half of a terse chapter in the Gospel according to St. Matthew tells all we know about it.

RECENT researches by American archaeologists in the ruins of an old Egyptian town have thrown a flood of new light on how the common people lived in the villages and small cities of Egypt during the time the Holy Family sought refuge there. Out of the dust of centuries they have dug the remains of the little houses of sun-baked brick where the folk lived their unobtrusive lives.

They have found door and window frames of wood, wooden stools and reading desks, wooden rakes and pitchforks—even wooden door locks with wooden keys! There evidently was no lack of work for Joseph. They have found glass dishes and woven baskets, such as Mary must have used in her housekeeping. They have even found quaint little wooden toys, oddly like modern playthings sometimes, such as Joseph might have made in his odd moments for the amusement of the little Jesus.

This is a new kind of Egyptian archaeology. The scientists of the spade have hitherto concerned themselves mostly with relics of the great, tombs of nobles, pyramids of pharaohs, enormous temples of the gods.

But history does not consist wholly of the record of the wars and wranglings of the great. There are also the laborious poor, on whose multitude of bowed backs thrones have always been borne. What of the common people of Egypt?

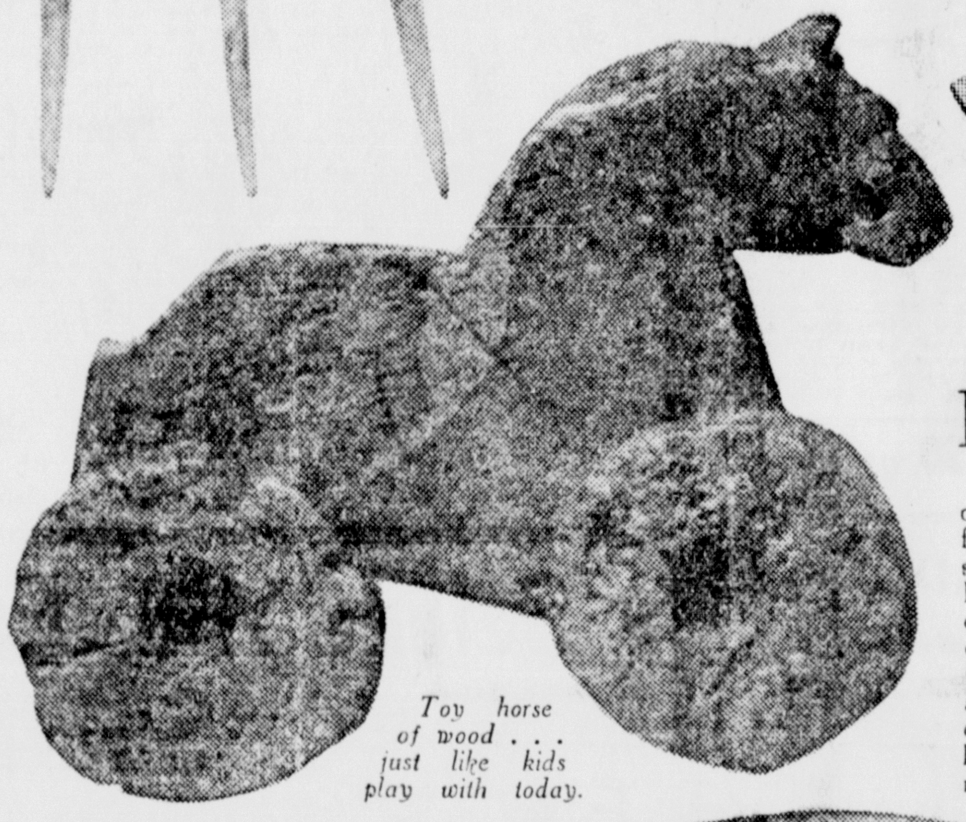
This new view of history led the Near East Research Committee of the University of Michigan to seek for a site in Egypt where the common people had lived their common lives—a mummified Main Street.

SUCH a place they found finally not in Egypt itself, but in the Faiyum oasis. This valley of green, which lies beyond a naked ridge of stone hills in a basin cut down into the Libyan desert, is a sort of annex or suburb of Egypt proper.

This region the Ptolemies brought under cultivation in one of the greatest reclamation projects of ancient times.

This Ptolemaic boom in real estate started more than two and a half centuries before the Christian era, and ended in the decline of the settlements when irrigation went to wrack and ruin during the civil wars that attended the downfall of the dynasty. Twice in later days these towns experienced a similar fate, their complete desertion falling in the fifth Christian century.

Thus the task of archaeologists who would study the small-town life of Egypt at a given period is simplified if they select the ruins of one of these towns in the Faiyum. It had a definite beginning and a definite end, and the situation is not complicated by finding manifold layer beneath layer of antiquity, as would be the case in almost any village in the Nile valley proper, where the same sites have been inhabited from Neolithic times down to the present day.

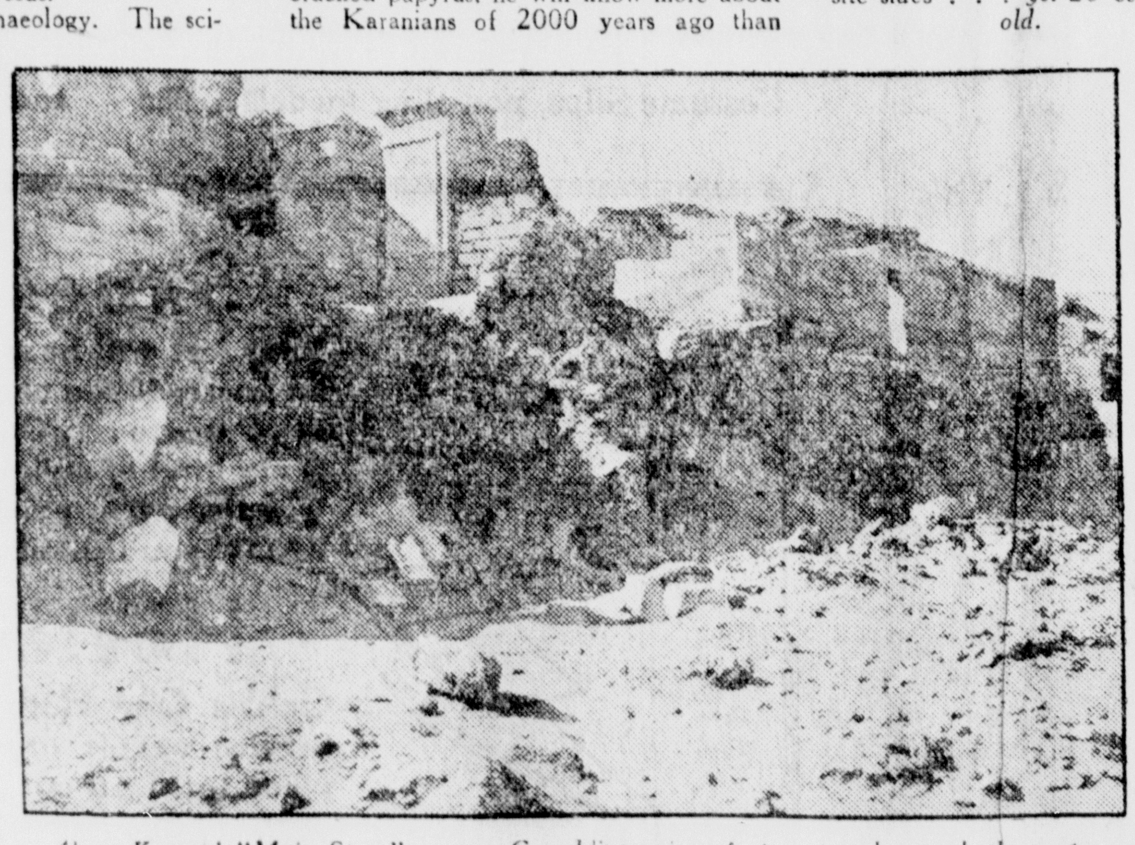


Toy horse of wood . . . just like kids play with today.

The town of Karanis, which the University of Michigan expedition selected as a specimen city for its investigation, had a population of perhaps 5000 in its best days. Dr. A. E. R. Boak, who initiated the work which is still being carried on, says he expects after further study to know exactly how many taxable people lived there during at least one period in the town's history, and even to know their names. Among the papyri recovered from the ruins are numbers of tax lists.

Egyptian officialdom has held the all-time world championship in ingenuity and thoroughness of taxation schemes, and it is a pretty safe bet that no person or piece of property in Karanis ever escaped the assessors. After Dr. Boak has had time enough to pore over sheet after sheet of cracked papyrus, he will know more about the Karanians of 2000 years ago than most American towns can learn of their own history of 50 years back. For the papyrus rolls, preserved by the dry climate, are in excellent condition, and may be read by scientists more accurately than yellowed records faded in northern climates.

But without waiting for the slow deciphering of the tax rolls and other written records it is still possible to learn a good deal about these small-town folks of long ago. The broken walls of the buildings themselves, buried in drifted sand, tell a story that he who digs may read.

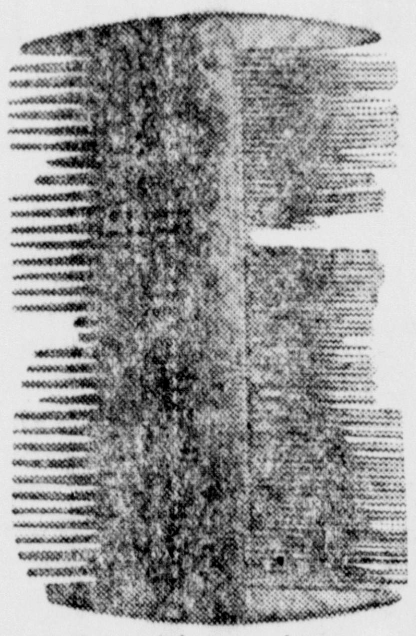


Along Karanis' "Main Stem." . . . Crumbling ruins of stone temples mark the center of old Egyptian towns just as the city hall or public square does today.

Wooden keys . . . fitted into ingenious wooden locks.

KARANIS has known three different periods, and there are three levels of foundations separated by layers of sand.

But the three towns that grew successively on the same site were very much alike, and fundamentally not unlike towns of similar size in medieval Europe, or the Maya Empire, or modern America. There was a center around which the life of the place circulated, and this was of stone. There were the houses and shops in which the people lived and traded, and these were of less pretentious construction. Here, as elsewhere in Egypt, house construction was of sun-baked brick, much like what we call adobe in our own southwest. The walls were built fairly thick, and the houses were small and set closely together.



Hard wood hair combs . . . exactly like those of today, with fine and coarse teeth on opposite sides . . . yet 20 centuries old.

The principal building, occupying the place in the Karanian scheme of things that the county courthouse holds in our modern Main Street towns, was the temple. The ruins of its stone walls, and a stone altar that attests its character, have been brought to the light of day. The presence of a temple as the most pretentious edifice does not argue that the people of Karanis were more pious than they were patriotic. Religion and citizenship were the same things, both in Egypt and in Rome; Pharaoh or Caesar was not only a civil ruler, but a high priest and a god in his own right.

BUT it is in the rooms of the houses where the people once lived, roofless now and with broken walls, that the most human and appealing chapters of the story of humble life in ancient Egypt may be read.

Here are the few pieces of furniture that met the simpler needs of an Oriental people. Here are the tools of field and workshop, the pots and baskets and bottles of the home, the quaint toys of the play yard. The desert air is so dry that they did not decay, as such perishable stuff would have in a moister climate, and at last the roofs and walls fell in and the drifting sands completed the burial.

They could be used today . . . an open-work basket woven of reeds is shown above . . . and at the right is a graceful glass flower vase which could fit becomingly in a modern home.

The villagers of Karanis might almost be said to have lived in an age of wood. Scores of objects that with us are made of metal are found ingeniously whittled out of timber. Perhaps the most remarkable and complicated mechanisms are the wooden door locks, opened with wooden keys. These are, to be sure, much larger affairs than the compact iron and brass devices that guard our own front doors. The wooden blocks that cover the sliding wooden bolts are half the size of a common brick, and the keys are six or eight inches long. But apparently they served their purpose.

More orthodox in appearance are wooden hayforks, carding combs, spindles, door frames. A curious piece of furniture is a wooden reading desk. This is in the shape of a wide but shallow trough. The two boards that form its top meet in the middle to form a wide "V," which prevented the rolls of papyrus that were the commonest books of that day from falling off. The desk is only about four inches high, and must have been used by a student cross-legged on the ground, a position still much used among Orientals.

MOST of the wooden articles are made of ordinary varieties of timber, but the carpenters showed the love they have always had for good tools. Numbers of mallets and wedges have been found that are made of mahogany.

But wooden things are not the most perishable objects that have been held imperishable by the kindly sands of oblivion. Woven and plaited fabrics of many kinds, that helped folks to make a living long ago, are turned up here in quantities, each new object an added paragraph in the mute inglorious history of a forgotten common people. There is a camel harness, woven of cords, a fishnet.

It is in household gear, however, that the ruins are richest. The people of Karanis were not rich, and they lived simply, but they had their own standards of comfort. Metal pots and pans for the housewife's kitchen work were of course unknown, but earthenware pots she had in abundance and in all conceivable sizes and shapes.

Great pottery jars for the household supply of water stood by the door, on stone stands. Pottery lamps hung from the ceiling beams or stood on wall brackets. The lamp makers seem to have been an artistically inclined group of craftsmen, for not less than 150 designs have been found among the lamps of Karanis.

ANYBODY who thinks that glassware for table use is a modern invention will have his eyes opened if he walks through the rooms of the museum at Ann Arbor. These Karanian women liked nice things, too, and they could set well-shaped glass bowls, goblets and bottles on the table when there was company for dinner. Most of it is delicately-tinted glass, too; the blues and greens are especially attractive.

And when a hostess of Karanis was getting ready for her guests, she had appropriate toilet aids. Only fragments of these two-millenium-old toilet sets can be assembled, but even the pieces are eloquent. There are several combs made of hard wood, accurately cut in a pattern still followed by the more modern hard rubber and pyralin products. There are pots for kohl, that eye-darkening cosmetic so universally used throughout the countries of the east, with sticks and a spoon for its application.

And when the party was on, it seems not unlikely that the ancient Karanians "made whoopee"—witness a pair of wooden castanets: witness also a set of dice, spotted in the same pattern as the dice of today.

But the folk of Karanis, whatever their daily labor or household cares or even frivolities, had one touch of nature that makes them even more kin to us of the present time. All through the village are reminders of children. The toys scattered about, perhaps just as the children left them, are mute witnesses of the affection which the Egyptians always felt for children.

They are, moreover, witnesses of the unchanging minds of children through the ages, for in the University of Michigan museum are things on which children of today would pounce as eagerly as did the children of 20 centuries ago. There is a handful of marbles, stained and discolored now, but round enough and of the right size, so that your own boy could "knuckle down" with them this minute. There are wooden toys on wheels, especially little wooden horses, so like those now favored by toddlers of four that they could be repainted and sold at any toyshop.

But perhaps the prize of the whole toy exhibit is a rag doll. It is probably the oldest rag doll in the world, not a big rag doll, and certainly not a beautiful one. It is just a wisp of linen cloth tied over a bit of stuffing with string.

But it was enough to satisfy the budding maternal instinct of a young daughter of Egypt, in the far-off days when, somewhere under the same sky, a slim foreign girl from the north sat under a palm tree tending her infant Son.

swept over his muddled brain. "Say! What the devil are you driving at, anyway?"

"No use, Dick!" Dundee's voice was like a whiplash. "And I don't doubt that you can't stand the thought of perfume—now."

Dick Berkeley did not answer. His pale-brown eyes stared blankly at Dundee for a minute, then his body sagged and slowly crumpled to the floor.

There were several questions the detective longed to ask, when the boy, whom he had undressed and put to bed, came to his senses. But Dick Berkeley turned his face to the wall and pretended to be too exhausted, mentally and physically, to speak a word. And perhaps he was. Dundee decided, as he shrugged and turned away.

When he himself was ready for bed half an hour later he laid his ear to the bathroom keyhole and listened intently. Yes, the boy was asleep and muttering brokenly. Noiselessly Dundee entered his friend's room and tiptoed to the bed.

"Sorry, Doris," Dick Berkeley was murmuring. "Sorry, darling, didn't mean—"

There was nothing more, and Dundee crept to his own bed, so weary that he was asleep almost before he could jerk out the bedside light.

He overslept unpardonably, and was the last to appear for breakfast, which he had just sat down to when Wickett came from the butler's pantry to inform him:

"A Dr. Jennings on the wire for you, sir."

Dundee almost ran to the library, closed the door and snatched up the telephone receiver without taking time to seat himself at the big desk on which the instrument stood.

"Dundee speaking, Dr. Jennings. You've completed the analysis?"

"I have," came the voice of the city chemist over the wire. "And my report is negative."

"Negative!" Dundee echoed.

"Yep," Dr. Jennings assured him. "I tested for wood alcohol first—"

"Wood alcohol!" the detective exclaimed. "I never thought of that—had some quick-acting, subtle poison in mind."

"Strawn vows you're a storybook detective," the chemist chuckled. "If that bottle of perfume had been diluted half and half, say, with wood alcohol, the effect upon the person who drank it would not have been swift, but it would have been very sure. Death probably, but blindness at least. Since that would have been the logical way to murder a person known to be a perfume addict—"

"Why logical, doctor?" Dundee asked curiously.

"For the simple reason that the purchaser of the perfume could contend that if the stuff contained wood alcohol, it must have been placed there by an unscrupulous manufacturer," the chemist answered impatiently. "Another good reason is that bootleg liquor, not doctored perfume, would have been blamed. Perfume-drinking is a secret vice and the addict, once dead, could not very well exonerate the bootleg fraternity and point to an innocent-looking perfume flask as the source of the poison."

"I see," Dundee admitted slowly, for his brain was whirling with new possibilities. "But since wood alcohol evaporates so quickly, how can you be sure that none was present?"

* * *

"I can't be absolutely certain," the chemist admitted. "If the perfume had contained perfectly pure wood alcohol, no trace would have remained. But that commodity is hard for the layman to obtain and the purchase of it would be traceable. On the other hand, ordinary commercial wood alcohol, used for many purposes, is easily obtainable and has a strong odor due to the presence of small amounts of several impurities, including pyridine and furfurol. Furfurol is not very volatile and hence would remain behind after the evaporation of the alcohol proper. It can readily be detected even in small amounts by sensitive color tests. I found none of these impurities in the scented handkerchief you gave me for analysis."

"But if the commercial alcohol has a strong odor, would not a perfume addict detect it and be repelled?" Dundee asked.

"Not necessarily," the doctor answered. "The odor of the very concentrated perfume would be the more powerful and tend to conceal almost entirely the unpleasant odor of the impure alcohol."

"I see," Dundee assured him very thoughtfully. "An ingenious way to murder an enemy."

The chemist chuckled. "Unfortunately, few of us have enemies who are perfume addicts."

"That's true . . . And you found no trace of any other kind of poison?"

"None whatever."

"Thank you very much, Dr. Jennings," Dundee said, and was a little surprised to hear the faint click of a receiver upon a hook. Odd that the genial chemist had not said good-by. He was about to hang up himself when he became aware that Dr. Jennings had not been rudely abrupt after all.

"You're entirely welcome, Dundee. Good-by."

A familiar, teasing voice cut into the detective's frowning concentration:

"Exit Mr. Seymour Crosby as a wicked old Borgia!"

"Gigi! Eavesdropping again! Now I know I'm going to spank you! I never saw such a girl—"

Gigi, on her knees in the big chair whose high back had hidden her from view until now, made a gamin "face" at him. "I guess this is my own father's library and I've got a right to read a book in my own father's library, haven't I?"

"Are you reading 'Penrod' by any chance?" Dundee asked sourly.

"No. A detective story that Dad said was a corker. But I guessed the murderer in the first chapter. . . Funny thing, too. He put wood alcohol in some bootleg liquor—"

"How many extensions has this telephone?" Dundee interrupted.

"Three," she answered promptly. "One in Wickett's pantry, one in Dad's bedroom and one in Abbie's. She has a private unlisted phone in her sitting room, too. . . Why?"

"Merely that you are not the only eavesdropper in the house." Dundee said grimly. "Does this telephone ring on each extension?"

"No. Only here and in Wickett's pantry, but had it occurred to you that Dad or Mother might have taken off the receiver to call out, found that the line was busy, and hung up? Or that Wickett may have neglected to hang up the receiver in the pantry until you'd nearly finished your conversation? I suppose Wickett did answer the phone in his pantry and send you here to take the call, didn't he?"

* * *

"Yes," Dundee answered shortly. He was not satisfied, but there was clearly nothing to be gained now by trying to trace the eavesdropper.

"Poor old Sherlock!" Gigi sympathized. "Was he all hot and bothered because his grand little hunch about poisoned perfume didn't pan out? Did he just yearn to clap nice Mr. Crosby on the should and say, 'Cr-rosby! The jig is up! I arrest you for the murders of Phyllis Crosby and Doris Matthews'?"

"Shut up, Hellion!" Dundee growled at her. What a capacity the little devil had for hitting the nail upon the head! "I confess I'm disappointed," he told her abruptly. "Not that I wish Crosby any harm! But my only ray of light on this confounded case proves to be merely a reflection cast by my own dazzling stupidity!"

"Very neat!" she applauded his simile. "But why not be content with dear old Johnson, the expert safecracker?"

The ringing of the telephone saved him the necessity of a lame reply.

"Western Union calling Mr. James F. Dundee," a voice droned in his ear.

"Dundee speaking. Have you a cablegram for me?"

"A prepaid radiogram from London, England, signed Sir Edward Moresby," the voice intoned with mechanical clearness. "I shall read the message: 'Kathryn Matthews unconscious following motor accident. Will question when possible.' . . . Shall I repeat the message?"

"No, thanks," Dundee said dully and hung up the receiver.

"Bad news?" Gigi asked quickly, with real concern.

Dundee grinned at her and they were friends again. "If I don't tell you, you'll find it out for yourself, you little ferret! Kathryn Matthews, Doris's sister in London, is unconscious following a motor accident. It will be just my luck to have her die before she can tell a few secrets regarding Phyllis Crosby's death, which Doris had confided to her."

"Mr. Crosby—or someone!—is playing in luck, isn't he?" Gigi said soberly.

"Playing in luck or playing safe!" Dundee retorted, but did not speak the words aloud, possibly because he had a strong hunch Gigi would have laughed at him.

* * *

"Come along!" Gigi cried, scrambling out of the big chair. "I'll take you on as a partner for tennis, if Dad and Dick will play doubles. They're already on the court. Fancy Dick's being out so early after his bender last night! Maybe he's avoiding you!"

"I shouldn't be a bit surprised!" Dundee retorted. "Will you wait here till I go up and change my shoes? I see you dressed with tennis in mind."

"Yes. Tish was going to play with me, but Abbie had a sudden yen for spiritual consolation this morning and nothing would do but that Tish and Clorinda and Mr. Crosby should go with her to church . . . Oh, don't get a grouch on!" she commanded, as Dundee frowned at her news. "Mrs. Lambert telephoned and asked Captain Strawn for permission."

As he ran upstairs Dundee wondered whether Abbie Berkeley's sudden and probably unusual need for "spiritual consolation" was the real reason for her attendance at church this Sunday morning, or whether it was a more carnal need to show off her socially distinguished visitor, since she had been cheated of her big party in his honor.

The tennis match proved to be an unexpectedly pleasant affair. The two couples offset each other evenly enough to make the game interesting. To make up for Dick's shakiness his father had superb control and rather astonishing agility. And Dundee's excellence counteracted Gigi's sometimes eccentric service.

As they were resting after a swift set, which had gone to Dundee and Gigi, George Berkeley took out his cigaret case and passed it.

"Here's a light, sir," Dundee offered quickly, snapping open his lighter. "Its performance is perfect since I filled it from that container in the library. Gigi tells me you invented the thing yourself. Very clever."

"I didn't invent the idea," George Berkeley denied, with surprising curtness. "I merely patented a gadget that simplifies the old cigar counter fountain."

"You use commercial wood alcohol to fill them, I believe?"

"That—or benzene," Berkeley answered brusquely. "Wickett attends to the filling of the fountains here . . . Well, Dick, I think I've had enough tennis for one day. I'd like to go over that business proposition with you now, if Gigi and Mr. Dundee will excuse us."

As the detective watched father and son stroll together across the lawn he was remembering what Gigi had said: "Dad's afraid some thirsty and incautious member of his precious family will take a swig of the wood alcohol and fill an untimely grave. Therefore he delivers periodic lectures on the horrible effects." If that was true, then why had George Berkeley deliberately contrived to leave the impression that he did not know personally whether benzene or wood alcohol was used for the fountains in his own home?

Gig was beating him rather badly at tennis, to her own delighted astonishment, when Wickett interrupted with:

"Police Headquarters on the telephone, sir. I asked them to hold the wire."

"Johnson!" Gigi cried, and pounded jubilantly after the running detective.

(To Be Continued)

Patrick Boyle Dies, Was Ill Three Weeks

Patrick Boyle, age about 68, died at St. Francis hospital Thursday morning at 10 o'clock after an illness of about three weeks.

Mr. Boyle, who lived at 805 First avenue north, lost his home by fire three weeks ago and caught a severe cold at that time, and developed bronchitis, which was followed by a fatal attack of heart trouble. He was taken to the hospital where he continued to grow weaker and passed away Thursday.

Patrick Boyle was born in Aronmore, County Donegal, Ireland, and came to this city 45 years ago. He worked as a top dock worker for the Chicago and North Western until about 15 years ago, when he fractured his leg. About a year later the leg was amputated and he had not worked since.

He is survived by two daughters, Mrs. Patrick Bonner, of St. James Island, Mich., and Miss Josephine Boyle, whose whereabouts are unknown.

His wife died 18 years ago and daughter, Mrs. Patrick Burns, died two years ago.

The body was taken to the Allo Funeral Home but funeral arrangements are incomplete, pending word from relatives.

St. Francis Hospital

Mrs. Gust Nelson, 623 North Sixteenth street, had her tonsils removed and some teeth extracted yesterday and is as well as can be expected.

Mrs. L. S. Jones, formerly Miss Marcella Fish, and twin babies, left the hospital yesterday.

Mr. and Mrs. Ed Morin of Cornell are the parents of a son born Thursday morning.

Mrs. Andrew Tappennen was admitted yesterday.

Mrs. Euene Morin of Cornell was admitted Thursday.

Gleaming hair!

The way modern hair dressers accentuate your hair by lovely lines and contours makes it important to keep the hair in perfect condition.

Now, millions know the quickest way to give the hair new life and lustre; to bring out its natural color, is with Danderine. It is so easy to use; you simply moisten your brush with it each time you arrange your hair.

Danderine dissolves the crust of dandruff; stops falling hair; puts the scalp in the pink of condition. It helps the hair grow long, silky, abundant; gives it more lustre than brilliantine. It makes the hair easy-to-arrange; holds it in place. Waves look nicer; stay in longer when "set" with Danderine.

Impressive Services Precede Eastertide

The various Catholic churches were filled yesterday morning with faithful who joined in observance of the first religious ceremonies of the solemn pre-Easter period.

Services of deep significance were held at the churches when the office of "tenebrae" or "shadows" symbolizing the darkness which covered the earth at the Crucifixion, decorations and ornaments were removed from the churches, purple veils and vestments of ecclesiastical mourning took place of the usual lithurgical altar cloths and vestments. Mass was followed by a procession in which the Blessed Sacrement is carried from the high altar to one of the side altars where it remained exposed for adoration during the day.

Today, Good Friday, mass of the pre-Sanctified will be celebrated, indicating that no consecration will take place on the day in which the Saviour was crucified, the sacrifice being made with a host consecrated the previous day. At the close of the mass the tabernacle door is thrown open and the crucifix is displayed at the foot of the sanctuary steps.

From Thursday until Saturday no bells or gongs are rung, and the organ is completely silenced.

Roads Still Too Spongy for Buses

Bus service between Escanaba and Marquette and Marquette and Iron Mountain is still under temporary suspension, awaiting improvement of the roads, which are too soft for the heavy bus travel. Gravel stretches on both routes, especially on the Marquette-Iron Mountain run in Marquette county, are reported spongy, and motoring is slow and difficult.

Preparations are going ahead for the establishment of a union bus station at Escanaba, and fixtures are being installed in the station, adjacent to the Wolverine garage. The place will be equipped as a ticket office, waiting room and restaurant for the convenience of customers, and will be a stopping place for all buses operating out of this city.

Approximately $634,788,690 will be spent for the construction of houses all over the United States during this year.

SPECIAL SALE CONTINUED BY POPULAR DEMAND

Saturday is Positively the Last Day of this Amazing Introductory Sale

The greatest sale of fine toilet requisites, which this city has ever had. Do not miss this unusual opportunity to secure the $1.50 jar of Thayer's Cream of Creams, $2.00 bottle Narcissus Perfume and $1.00 box Bizares Face Powder—all for only $1.00.

PASTOR RESIGNS AT NEWBERRY

Rev. R. F. Peterson to Leave Presbyterian Church Post

Newberry, Mich., April 17. (Special).—The Rev. R. F. Peterson, pastor for the past two years of the Presbyterian church, handed in his resignation at the annual meeting of the congregation held on Tuesday evening at the Manse. Mr. Peterson came to Newberry after his graduation from McCormack Seminary. His home is in Green Bay, Wis. Plans of Mr. and Mrs. Peterson have not been announced.

At this meeting the annual reports of the various bodies of the church organizations were given, showing a year of unusual activity and success. This congregation has been laboring under the handicap of having lost their church building by fire last summer. Services are held in the Sunday school room, which was not burned, with the primary department using the second floor of the manse.

Dr. E. H. Campbell, for several years elder, was again returned to that office. He announces that the plans of the organization are not yet settled. No definite building campaign is contemplated at this time but the fund for the structure of a new edifice is now open. Including the insurance and pledges available it is reported that about $5,500.00 is already in sight.

Prosecutor's Mother Dies

A. L. Sayles, Luce County Prosecutor and Mrs. Sayles returned the first of the week from attending the funeral of his mother, Mrs. W. D. Sayles who died on April 11 in Detroit. The funeral was held in the former home, Yale Michigan,* on Sunday April 13th.

Annapolis Exam.

Neil Yuori, the second candidate to receive an appointment to Annapolis from Congressman F. P. Bohn among Newberry young men went to Sault Ste. Marie today, to write on the national examation. John Horner, graduated from Newberry high school in 1928 is now in his second year at the naval school. Mr. Tuori graduated in 1929 and has been a student this year at the Michigan State College, Lansing.

Ironwood Man Passes

John Simon, a patient at the Newberry State Hospital from Ironwood, died at the institution on April 12th. The funeral was held from the Catholic Church on the forenoon of April 15th, the Rev. Fr. Eiling officiating, and burial took place in Forest home cemetery.

Easter Teas.

The Presbyterian Guild held their Easter Tea and sale at the Manse on Tuesday afternoon. A good attendance was reported.

Mrs. M. B. Fretz and Mrs. Hugh Campbell entertained the ladies of the Methodist Episcopal Ladies Aid at the Fretz residence on Truman Avenue on the afternoon of April 15. An Easter tea was served.

Personal Items

Mrs. C. T. Leighton who has been ill at her home in the Leighton building is reported much improved.

Thorolf Sundstrom and family left the first of the week for Dull, Texas, where they have property in or near the newly opened oil fields. They expect to visit in Flint, Detroit, Toledo, directly south through Kentucky and Tennessee and then cross through Louisana before heading for their new home.

SENEY NEWS

Seney, Mich., April 17. (Special).—The election dance Saturday night was a big success, a big crowd attended from Grand Marais, McMillan, and Germfask. The music was very good, and every one took advantage of it, and from all appearances had a very enjoyable time. A delicious lunch was served at midnight, that pepped them up until the wee small hours in the morning.

Mrs. Robert Kubond has had her mother, father and brother visiting with her for the last few days, they expect to return to their home in Moran Tuesday evening.

Mrs. Hyvonen is still in the Negaunee hospital, she underwent an operation for appendicitis, and from all reports is getting along as nicely as can be expected. Mrs. Albert Nelson's father called on her last week. His wife died recently.

Leonard Bloomquist of Chicago, has excepted a position as electrician with the Newberry Lumber and Chemical Company. He is expected to arrive here in a few days.

On account of high water, the basement of the school house is flooded, so there will no school for a few days.

Earl Bryers of West Lakefield helped the Munising orchestra to make music for the dance on Saturday night.

Mr. and Mrs. Harry Smathers and son, Wayne, drove to Munising Sunday to visit Mrs. Florence who has been ill for some time.

Mr. Emerson Smith called on relatives in Seney Monday.

Fred Wager of West Lakefield who is working on the high power electric light line south of Blaney spent Sunday with friends in West Lakefield.

Mrs. Harold Olsen and Mrs. J. W. Holbrock were callers in Newberry Tuesday.

Miss Agnes Winslow of Sault Ste. Marie, is helping Mrs. Holbrock.

REXTON

Rexton, Mich., April 17 (Special).—Mrs. Lilian Ryerse of Hendrick's Township died at the Soo Hospital on April 14. Mrs. Ryerse's death was due to a stroke of paralysis.

Verna Derousha an eighth grade pupil of Rexton, received a severe cut below her right eye while playing in the yard Monday.

Hugh Fisher, of Gilchrist, was taken to the Soo Hospital last Friday because of an attack of appendicitis.

Mr. Toms, the janitor of the Rexton school, has begun his new house at Naubinway. Mr. Toms expects to go in the fishing business immediately upon the close of school.

Mrs. Miller, Miss Johnson and Miss Anguilm are returning to Rexton as teachers next year.

Twelve millionaires now have seats in the United States senate.

WILL ORGANIZE 4-H CALF CLUB

Ed Branbeck Appointed As Leader of Felch Organization

Felch, Mich., April 17 (Special)—With Ed. Branbeck as club leader, a calf club will be organized at Felch Mountain. A number of boys have purchased calves already.

Last year the club was just organized and the membership was small owing to the shortage of calves.

A Poultry Club and Potato Club are also under plans to be organized.

The clubs are very useful in point of record work. Each member is required to make a yearly report of his or her project during the previous year. Various projects are analyzed as to cost of material, time spent, value of project, etc.

A club, either Potato or Calf, will also be organized at Calumet Mine. This is a former mining town, in Breen township, three miles south-east of here.

A number of students have signed their names on a petition to become members of the Forestry club which will be organized by Mr. Wells and County Agent Lonsdorf on Thursday. The officers and future plans will be the chief purpose of the meeting.

Sophomores Entertain.

The Sophomores entertained the Juniors with a delightful get-together party on Monday evening. All members of both classes were there. The class advisers were present, namely, Ruthie Dykstra for the Juniors, and Otto Thompson for the Sophomores.

Teachers Rehired.

The teachers at Felch are rehired for the ensuing year. The following teachers will return: J. D. Mitchell, Superintendent; Arthur Alford, Principal; Otto Thompson, Science Dept.; Ruth Dykstra, English; Freeda Bonz, Home Economics; Martha Backlund, primary grades; Alina Skog, intermediate grades.

Personal Items.

Principal Arthur Alford is recovering from an attack of the "summer influenza."

CORNELL NEWS

Cornell, Mich., April 17 (Special)—Following are the Chandler school notes for the past month, sent in by Mary Carignan.

The Civic Society held a meeting on Friday, April 11, for the election of officers.

The fifth, sixth and eighth grades have given each 25c to buy a new basketball. We are all anxious to start practice again as the snow is off the court.

After the meeting on Friday afternoon the whole school took part in the house cleaning campaign. The walls of the school were dusted, windows and pictures washed and the yard cleaned up.

The game of "prisoners goal" has been our means of entertainment for several weeks. We expect to learn many more games besides taking part in some athletic contests.

Other News Items.

Mrs. Lee Woodard spent the latter part of last week with relatives in and around Claybanks, Wis. She made the trip by motor with her son Harold, who went to Manitowac to seek employment.

Mrs. J. Donavan has returned to Cornell to spend the summer at the Clarence Sanborn home. Mrs. Donavan spent the winter with her people in Wisconsin.

Mrs. Bengta Nelson, daughters Ruth and Anne, of Escanaba, spent the week-end at the Harrod and Nelson homes.

The crew of men employed by the Michigan and Wisconsin Power Co., has completed their electrical and fencing job and have left Cornell.

Mrs. Hillbom is a patient at the hospital at Ann Arbor, Mich. Her many friends hope for her speedy and complete recovery.

Allan Way is loading out the excelsior and posts that he had cut the past winter.

A joint Sunday School meeting will be held at the town hall on Easter Sunday. The meeting will begin promptly at 2:30 p. m., and Rev. Cathcart has promised to deliver the Easter sermon at that time. The Cornell and Hendrick's pupils and leaders will present an appropriate program and it is hoped it will be well attended.

Bark River-Harris

Bark River, Mich., April 17. (Special).—Mr. and Mrs. Frank Pavlot motored to Crystal Falls Tuesday to visit relatives.

The ladies of St. George's church will sponsor a bake sale Saturday at the Fred Derocher store. The proceeds are for the benefit of the Altar Society. The patronage of the public will be appreciated.

The local business places will close Good Friday from noon until 3 o'clock. Schools are closed for a short Easter vacation and teachers have left for their respective homes.

Grand Marais, Scenic Spot of Alger County, Awaits Tourist Season

Munising, Mich., April 17 (Special)—The Grand Marais community, one of the most beautiful spots in Alger county and one of the oldest in point of settlement, is making preparations for a thriving resort business this season, Supervisor S. H. Ostrander reports.

Years before the advent of the white man it was a much favored spot of the Chippewa Indians, on account of the adjacent hunting and fishing grounds. Standing upon the shore, the broad expanse of Lake Superior stretches out as far as the eye can reach, and meets the horizon in a haze of blue.

A wonderful beach of almost white sand and pebbles stretches away into the distance towards the Sable Banks and Pictured Rocks. A most beautiful park of hardwood timber lines the beach and is elevated from it. The view of lake, rocks and sky, on summer days when fleecy clouds float high up against an azure background, is magnificent.

Once Booming Town.

Grand Marais once experienced quite a boom when the sawmill was in operation and a wealth of lumber was manufactured there. Then when the timber was becoming exhausted the mill was dismantled and the railroad track torn up. Then Grand Marais went quietly to sleep and dozed away until within a few years ago when her picturesque beauty was discovered by the summer tourists who, like the radio waves, penetrate everywhere.

Prosperous Summer Resort.

Each season the number of tourists who visit Grand Marais has been increasing in number, property has taken an upward tendency, and the inhabitants of the little village are no longer the counterpart of the denizens of Sleepy Hollow.

A new business has sprung up. Here and there is seen the inevitable gas station, the "rooms for tourists" sign, the resort hotel, the restaurant, the gaily decorated drug store, the throngs of people, and all the evidences of a prosperous summer resort. Of course in the winter time the people take a nap, but it is the doze of contentment, with dreams of better seasons to come.

Stories of Indians.

It may be of interest, and particularly, to Grand Marais people to know that the spot was very familiar to Schoolcraft. Here it was in one of his narratives of Indian Character that he discovered an example of fidelity and fortitude unequalled in the annals of any race, and which would be deserving of a Carnegie hero medal if performed now.

The incident relates to a chief of the Chippewas who was born at Grand Marais and whose name was Gitsche Naygow, or, Great-Sand-Dune, and his daughter, who is the heroine of the story. We quote from Schoolcraft, who, writing in 1850, relates the story as follows:

"There lived a noted chief at Michilimackinac, in days past, called Gitshe Naygow, or the Great-Sand-Dune, a name, or rather nick-name which he had, probably, derived from his birth and early residence at a spot of very imposing appearance, so-called, on the southern shore of Lake Superior, which is east of the range of Pictured Rocks. (This is now known as Grand Marais.)* He was a Chippewa, a warrior and counsellor of that tribe, and had mingled freely in the stirring scenes of war and border foray, which marked the closing years of French domination in the Canadas.

"He lived to be very old and became so feeble at last, that he could not travel by land, when spring came on and his people prepared to move their lodges from their sugar camp in the forest to the open lake shore, they were then inland, on the shores of the Manistee river, a stream which enters the northern shore of Lake Michigan. It was his last winter on earth; and his heart was gladdened by once more feeling the genial rays of spring, and he desired to go with them, to behold for the last time, the expanded lake and inhale its pure breezes. He must needs be conveyed by hand. This act of pity was performed by his daughter, then a young woman. She carried him on her back from their camp to the lake shore where they erected their lodge and passed their spring, and where he eventually died and was buried.

"This relation I had from her own lips, at the agency of Michilimackinac in 1833. I asked her how she had carried him. She replied, with the Indian apehun, or head-strap. When tired she rested, and again pursued her way, on-wa-be-win, by on-wa-be-win, or rest by rest, in the manner practiced carrying heavy packages over the portages. Her name was Nabowakwa, or the female Iroquois. She was then, perhaps, about 55 years of age and the wife of a chief called Saganosh, whose home and jurisdiction were in the group of St. Martin Islands, north of Michillimackinac.

"The incident was not voluntarily told, but came out, incidentally, in some inquiries I was making respecting historical events, in the vicinity. One such incident goes far to vindicate the affections of this people and should teach us, that they are the same general lineage with ourselves, and only require letters and Christianity, to exalt them in the scale of being."

Proposes Monument.

We would suggest that the people of Grand Marias engage in archaeological research to determine the exact spot where the old chief, Great-Sand-Dune, resided and erect a tablet there to commemorate his own exploits as a warrior and the heroism of his daughter. We leave this to Supervisor Ostrander. The spot would be pointed out to tourists and become an attraction for Grand Marais every summer.

* Note by Reporter.

BLANEY PARK

Blaney Park, Mich., April 17. (Special)—Recent guests at Bear Creek lodge in Blaney were as follows: O. H. Pariseau, Escanaba; C. F. Sawyer, Escanaba; C. P. Pattison, Escanaba; William A. Clausey, Alpena; Andy Reinhard, Sault Ste. Marie; C. N. Massie, Chicago; C. D. Wygel, Manistique; F. C. Klesens, Grand Rapids; John MacLachlin, Evanston; Burt L. King, Escanaba; L. H. Fuqua, Frankfort, Ky.; Stanley W. Bullenaut, Sault Ste. Marie; F. E. McCarthy, Manistique; C. H. Howard, Manistique; J. J. Boucher, Escanaba; O. P. Stark, Munising; Albert Schulbring, Gertrude Smith and Fern Smith, Manistique; Louise Vallier, Engadine; and Roscoe E. Munson, Green Bay.

T. Oliszewski of Milwaukee, is working on the refrigerator that is being installed in the local store. He is connected with the Vilter Mfg. Co.

Louis Kalb and W. E. Callette both of Green Bay, retired business men, stopped at Blaney Thursday. Mr. Callette was on his way to visit his son, Capt. Harold Callette, at Fort Brady at The Soo.

Mr. and Mrs. Bradley P. Griffin of Blaney, Dorothy Gibson and Paul Welsh of Newberry, were dinner guests at Bear Creek Lodge Sunday.

W. T. S. Cornell, county school commissioner, visited the Green school Tuesday. Mr. Cornell gave the seventh and eighth grade children some last year state exams so they will be better prepared at the end of the term when the eighth graders take their state exams at Manistique.

G. Harold Earle, president of the Wisconsin Land and Lumber company, visited Blaney Thursday.

The Celibeth cottages and a wing of Bear Creek Lodge have been shingled the last week by the Bill McDonald Contracting company.

Miss Onata Murphy, who is a patient at the Shaw hospital, is improving at this writing.

John and Evelyn Quist are visiting their parents, Mr. and Mrs. Matt Quist of Blaney.

Mr. and Mrs. Charles Dyer of Manistique, called on their daughter, Eva Dyer, of Bear Creek Lodge, Sunday.

METROPOLITAN TO FORM CLUB

4-H Calf Club Will Be Reorganized for Season's Work

Metropolitan, Mich., April 17. (Special).—The Calf Club at Metropolitan will organize this year, next Wednesday evening, after the Handicraft and Sewing Club exhibit.

Last year the club had some thirty members here. Dickinson County also had more calves at the County fair than another county fair in the state.

Officers for the coming year will be elected. Last years president, Maurice Anderson, will take charge of the meeting.

Many girls here are members of the calf club, also of the calf judges phase of the work.

George Nygard, successful dairyman has been leader of the club for a number of years and has been very successful; the club is trying to acquire him for another year.

Monday afternoon the children of the school organized in groups with a leader for each group. Each group had a certain section of work to do. Some picked up chips, some papers, some raked, others burned the grass. The yard is nice and clean and each group is responsible to see that his section is kept clean.

Farmers here also are burning up the long grass, raking and doing their spring plowing.

The baseball park was cleaned and grated and the grass in the outfield burned.

Members of the seventh and eighth grade science class had their first trip of the season Tuesday afternoon. The class traveled to the west branch of the Sturgeon river and gathered buds and early weeds.

Personal Items

John Bloomquist has purchased a new one and a half ton tractor from John V. Sundstrom.

The weekly prayer meeting of the Metropolitan branch of the Lutheran church held its meeting at the home of Andrew Wickmans. A large crowd attended.

Transit House at Bark River to Be Reopened Shortly

Bark River, Mich. (Special)—The Transit House, remembered by older residents as Bark River's leading hostelry, will again take its place in the business life of the town, under the name of Park View Hotel. It is located south of the C. and N. W. Ry. tracks and the new highway U. S. 2-41 now under construction and facing the proposed town park.

Mr. and Mrs. R. J. Viau, the new proprietors, since their return from Florida have remodeled and redecorated the entire 23 rooms, 10 of which are bedrooms. A large attractive lobby, living room, public and private dining rooms, where guests may dine and dance.

New electric lighting fixtures and many other improvements have been made.

The hotel will be open for the public on or about April 21.

Personal Items.

Paul V. Anderson motored to Bessemer and spent the week-end with relatives.

Mr. and Mrs. Myron L. Good and family of Gross, attended the funeral services for Mrs. Lydia Sundquist last Saturday afternoon.

Mr. and Mrs. Trombley of Nadeau, spent Sunday at the C. R. Lahay home. Mrs. Trombley remained at the Lahay home for a longer visit.

The Misses Lillian Courville of Iron Mountain and Helen Courville of Hermansville, spent Sunday at the home of their parents.

Mr. and Mrs. George Heim have taken up their residence at Escanaba where Mr. Heim is employed with the L. and L. trucking company.

CHURCHES OPEN SERVICES TODAY

Business Houses Close 3 Hrs. in Observance of Good Friday

Good Friday Proclamation

Preceding Easter Sunday each year the peoples of all Christian nations of the earth commemorate the crucifixion of Jesus Christ on Good Friday. It is a day for meditation, silent thought, and prayer. The churches of Manistique will be open on that day and services will be held throughout the city in memory of the crucifixion of the Savior of Mankind.

It is only fitting that all should go to the church of their choice on Good Friday to honor the name of Our Lord. I, therefore, as mayor of the city of Manistique, proclaim Friday of Passion Week, called Good Friday, a day for meditation and ask that it be observed in a manner appropriate of the time.

Let local business houses close their doors between the hours of twelve o'clock noon and three in the afternoon, April 20th, 1930, that we may do honor and respect to our Lord Jesus Christ Who suffered and gave His life on the cross that mankind might be saved.

(Signed)
ALFRED J. CAYIA
Mayor

Under the auspices of the Manistique Ministerial association a three hour service will be held on Good Friday in the First Baptist church beginning at 12 noon and closing at three o'clock.

By proclamation of the mayor all places of business will be closed for this period giving to everyone an opportunity to avail themselves of the privilage of attending church on this day to commemorate the death and sufferings of our Lord and Saviour Jesus Christ.

The service will begin promptly at noon the Rev. V. Holmsted presiding. The great hymns of the Christian church will be sung and special music has been arranged. Those attending this service will be given opportunity to leave at any time during the three hours if it is impossible to stay for the whole period. To those who cannot come at noon the opportunity is given to come at any time during the three hours and to stay as long as they are able.

The Minesterial association is hoping that this service will prove of tremendous value to the people of the community. The order of the seven words from the cross will be taken by the different pastors as follows:

The first word: "Father, Forgive Them for they Know Not What They Do,"—Rev. C. Mullenburg.

Second word: "Today Thou Shalt Be With Me in Paradise"—Rev. Elmgren.

Third word: "Woman Behold Thy Son"—Rev. Erickson.

Fourth word: "My God, My God, Why Hast Thou Forsaken Me"—Rev. P. Lomas.

Fifth word: "I Thirst"—Rev. Miulenburg.

Sixth word: "It Is Finished"—Rev. J. Grosa.

Seventh word: "Father, Into Thy Hands I Commend My Spirit" —Rev. V. Holmstedt.

Passion week services which have been given by seven Protestant churches of the city at the Swedish Baptist church during the past week have been more successful than at any other time in the history of Manistique. During many of the services the church was filled to capacity and many were forced to stand throughout the sermons.

Women's Club Hears Interesting Talks On Beautification

A most interesting paper on "Schoolgrounds and Cemeteries" was given by Mrs. Wesley Orr at the Women's Club meeting which was held in the Elk's Temple Tuesday afternoon. Mrs. Orr stressed the need of selecting a schoolground site which would provide ample room for every form of recreation. In considering the site, ample space should be provided for baseball, tennis, and other games, skating, a coasting hill, swimming facilities, and gymnastic apparatus, such as slides and swings. In addition to these features there should also be abundant space for shade trees shrubs, and any other natural settings that would add to the beautification of the ground.

Park Like Cemeteries

Continuing her talk with the subject of "Cemeteries," Mrs. Orr said, "The ideal location for the cemetery is ground that is somewhat undulating, thoroughly drained, with sufficient top-soil to support vegetation. The present tendency is to locate cemeteries in suburbs making them as park like as possible.

The problem presented to cemetery associations is how to secure the most pleasing combinations of growing plants, including trees, shrubs, flowers and grass, the most satisfactory views, the most harmonious and restful park for the cemetery is really a memorial park."

A splendid paper on "Parks" was presented by Mrs. A. F. Hall.

At the conclusion of the meeting refreshments were served by the hostesses. Table decorations were carried out in the Easter motif of white and silver. A large bouquet of white snapdragons and calla lillies formed the centerpiece of the table.

Hostesses includede Mesdames A. B. Waters, Neville, Southard, J. Putnam, Holmstedt and Cookson.

GERO—Today

SAFETY PATROL WORKING HARD

22 Youngsters Manifest Interest in Novel Junior Plan

Twenty two manistique youngsters are busily engaged in fire and police work under the direction of Fire Chief Charles Underwood and Chief of Police John Peterson. The organization in which the youths are enrolled is known as the Junior Police and Fire Safety Patrol, and the youngsters have manifested a great deal of interest in the work.

The organization was recently established here by the state police and since then has been admirably carried out by the two local officials. The police aspect has been tried in many cities of the state with considerable success but it remained for Charles Underwood to link the fire prevention and first aid ideas to the organization. The plan has been carried out so successfully that state police will try to institute the new procedure in other cities as well.

Direct Traffic

Originally the plan was that of insuring the protection of children in crossing streets to and from school. From three to five junior police were selected from each school who are allowed to leave their respective institutions a trifle earlier than the others. The junior police direct pedestrian traffic from the curbing and are never allowed to step into the street. When traffic is at a lull they direct the younger children across the street, and instruct them to look both ways before crossing the intersections.

Fire Chief Underwood meets with the firemen patrol every two weeks at the fire hall and instructs the members in different phases of boy scout work such as artificial respiration, applying tourniquets, proper methods of carrying the injured, and other safety and first aid methods.

At the last meeting of the patrol, Mr. Underwood instructed the boys as to the location of the 22 artery pressure points of the body and they will be given a test on this at the next meeting. A great deal of work has been done by the department in burning fields of dried grass about the city, thus ridding Manistique of needless fire hazards.

Firemen Answer 5 Calls Wednesday

Local firemen put in one of their busiest days since the first of the year Wednesday when they answered five calls, two grass fires, a chimney blaze, and a roof fire.

The most serious of the five was one at the home of George Kralick, Alger avenue at 10:45 Wednesday morning when sparks from the chimney ignited the roof. The strong wind blowing at the time fanned the flames into a real blaze and when the fire department arrived the flames had gained considerable headway, and had gotten between the walls.

The interior of the house was quite badly damaged and the roof was completely demolished. Some of the furniture was ruined by acids and chemicals although most of it was safely carried out of the residence. The loss which is covered by insurance is estimated between $1000 and $1500.

Sparks Start Fire

At 4:45 in the afternoon a grass fire took place on the property of the Manistique Pulp and Paper company and was quickly extinguished. It is believed that sparks from a passing locomotive may have started the fire.

Later in the afternoon, at 5:45 grass in the rear of the residence of Rev. William Erickson on North Third street, caught fire burning a fence and threatening a nearby garage.

A chimney fire occurred at the home of Ed Beaudoin, north first street and at 6:30 p. m. a similar blaze took place at the residence of James Dean, River street. Both fires were of a minor nature and very little damage was reported.

Circuit Court Ends April Term; Will Reconvene On May 8

The April term of circuit court for Schoolcraft county under Circuit Judge Herbert W. Runnels adjourned Wednesday afternoon until Thursday, May 8, when a decision on the Huber case will be handed down.

The case of Patrick Foley and Mark Ronan, who were charged with driving a car away without authority was continued indefinitely. Both Foley and Ronan who have been confined in the county jail for the past six months were released Wednesday.

Of the 16 criminal cases on the calendar, nine were continued until the next term of court and the remainder were disposed of. The only persons to receive sentences were Charles Litchfield and Richard Lyntz. Litchfield was sentenced to Ionia reformatory for a period of from five to ten years and Lyntz was given from one to five years in the same institution.

CITY BRIEFS

Mr. and Mrs. Fred Fitch are leaving today for Detroit where they will spend two weeks with their son and daughter in law, Mr. and Mrs. Burton Fitch.

Miss Hildur Johnson, Gwinn, has arrived in the city to spend Easter with her mother, Mrs. Adolph Johnson.

Mrs. Frank Zeilback left Wednesday for Oshkosh, Wis., to visit her daughter, Theresa. Before returning she will visit two sons, Joseph and George, Waukegan, Ill.

Mrs. Harry Ashford left last night for her home in Chicago after spending the past week visiting at the Edmund Ashford and W. T. S. Cornell homes. Mr. Harry Ashford who spent the week end here returned to Ewen, Mich., Monday where he is employed.

Herman Soder is leaving today for Battle Creek where he will enter the American Legion hospital to receive medical treatment.

Mr. and Mrs. G. B. Carlson and family are leaving today for a ten day visit with relatives and friends in Minneapolis.

Mr. E. O. Brault has left for Marinette to spend several days with relatives.

Mrs. J. J. Howbridge, Birmingham, is visiting her parents, Mr. and Mrs. Adolph Sandberg.

Mr. and Mrs. R. P. Waters and son, Dean, Monroe, Mich., arrived in the city yesterday morning to spend the week end with the former's parents, Mr. and Mrs. R. S. Waters. They were accompanied on the trip by William Goodman who is enroute to Gwinn to visit his parents.

Miss Elsie Soderbeck returned Tuesday from a week's visit in Escanaba.

BRIEFLY TOLD

Omission—The name of Mrs. J. Grosa who was also a guest at the birthday party given for Mrs. Peter Lindenthal Wednesday, was unintentionally omitted in the Press yesterday.

Easter Morning—Henry Brolin, Howard Shamstine.
The Fishers—Four Junior Boys
Benediction.

Junior Red Cross On National Radio Broadcast April 24

A Junior Red Cross radio program was heard throughout the country yesterday through the national network of the Columbia Broadcasting system and another will be heard from the same stations on next Thursday at 2:30 p. m., according to Edmond LaFave, chairman of the Schoolcraft county chapter of the American Red Cross.

In February the Columbia Broadcasting system launched a program which it called "The American School of the Air" and twice each week it has been broadcasting educational topics presented b ythe leading educators of the country. The most prominent men and women from all sections of the country. The "School of the Air" arranged for the American Junior Red Cross program to take the place of the regular program of yesterday's program and also the one which will be broadcast on Thursday, April 24.

Health Topic Broadcastted

Yesterday's program consisted of a discussion of a health survey which had been carried on in all of the schools of "Clarksville." In the course of a lively discussion, questions of the doctor who had been in charge of the survey brought answers stressing the important phases of education and precaution. The broadcast which will take place next Thursday will deal with disaster work of the Red Cross and develops the part which the Junior Red Cross plays in a chapter adequately organized for emergency and disaster relief work.

18 TO ENTER SCHOOL MEET

Pick Commercial Students for U. P. Shorthand Contest

Eighteen members of the commercial department of Gladstone High school have been chosen to represent their school in the Tenth Annual State High School Typewriting and Bookkeeping contests which will be conducted during May.

All will compete in two events, the district contest which will be held at Kingsford, Saturday, May 3, and the Upper Peninsula Shorthand Typewriting and Bookkeeping contest which will be held in Marquette, Saturday, May 17. First and second place winners in the U. P. event are eligible to compete in the State Contest at Kalamazoo, May 24.

The various events and participants follow:

Typewriting Events.
Novice Class

1. Viola Tang
2. Gertrude Kee
3. Florence Kinkella (alternate).

Amateur Class

1. Elna Peterson
2. Agnes Mallongree.
3. Helen Birmingham (Alt.)

Typewriting Team

1. Elna Peterson
2. Agnes Mallongree
3. Arthur Bjorklund
4. Helen Birmingham
5. Muriel Black

Shorthand Events

3. Esther Ekstrom (Alt.)

Amateur Class (100 Words)

1. Mary Globick
2. Muriel Black
3. Dell Tostenson (Alt.)

Advanced Class (120 Words)

1. Agnes Mallongree
2. Wilson Schwahn
3. Arthur Bjorklund (Alt.)

All-round Stenographic Efficiency

1. Elna Peterson
2. Helen Birmingham
3. Mary Verhamme (Alt.)

Bookkeeping Event.

1. Herbert Holmberg
2. Astrid Helman
3. Raymond Weingartner
4. Ruth Tackman.

The students are very much enthused over the contest and are expected to make a favorable showing. They have been prepared and instructed for the events by C. E. Fisher, in charge of the commercial department.

CITY BRIEFS

Mrs. J. A. Medill has returned from Mussola, Mont., where she was called by the death of her brother, Wm. Moore.

Josephine Magoon, student at N. S. T. C., Marquette, Mich., arrived in the city Thursday to spend Easter with her parents, Mr. and Mrs. M. J. Magoon.

Norman and Vincent Paul Johnson have arrived from Marquette to spend Easter at the home of their parents, Mr. and Mrs. Soren Johnson, Lake Shore Drive.

Mrs. Herbert Peterson and children left Monday for Valders, Wis., where she will visit for a few days.

Mrs. Barney Brennan and daughters Leona and Grace have returned to Valders, Wis., after visiting at the Herbert Peterson home here.

Mrs. Wm. McDiarmid has returned from Manistique where she attended the funeral of Mrs. Tucker on Wednesday.

Mrs. Ernest Borchert and son Donald left yesterday for Minneapolis where they will spend the Easter week-end.

C. E. Russell left last night for Superior, where he will visit for several days.

Mr. and Mrs. A. E. Haberman, Florence, Wis., will arrive here Saturday to visit with Mr. Haberman's brother Otto.

Att'y Empson to Direct Musical End Of Minstrel

Added impetus was given the Legion Minstrels, at a rehearsal Wednesday evening, when full direction of all choral work was placed in the hands of Att'y G. R. Empson. Mr. Empson is a splendid musician and a capable song leader and his acceptance of directorship of the choral work assures the calibre and success of the musical numbers. General direction and staging is being done by Earl Fisher.

The minstrel will be staged at the Rialto auditorium April 30 and May 1. It will be the first to be staged here in some years and something novel in the way of minstrels is promised.

Tickets are in the hands of the printers and the ducats are expected to be placed on sale Monday.

Several specialty acts by high school girls to be staged between acts, are being planned.

The program committee is composed of John Mattson, and B. R. Micks.

Business Houses Will Observe Day

All business houses, institutions and public offices in Gladstone will close for a time today in observance of Good Friday.

However, the same closing period is not being observed by all houses. Grocery stores, meat markets, and hardwares will close at noon and remain closed throughout the afternoon. Drygoods and drug stores, and the public offices will close at noon and remain closed until three o'clock. Banks will remain open.

BOWLING NOTES

The City Club took two out of three games from the All Stars in the final league match of the season, Wednesday evening at the Rialto alleys. Tang of the victors had high game with a score of 229 and also high average with 191.

The match score:

CITY CLUB

Tang	179	229	165
Micks	145	138	145
Hawkins	171	157	97
Hillman	165	137	184

Funeral Rites For Wm. Larma Held Yesterday

Funeral rites for William Larma, aged Gladstone resident, were held yesterday afternoon at two o'clock from the Swenson Brothers' Funeral parlors.

Services were read by Rev. Paul E. Palmquist, pastor of the Swedish Mision church of this city.

Interment was in Fernwood cemetery.

William Larma passed away Tuesday at the Laing hospital in Escanaba after an illness of over a years duration. He was 74 years of age and death was caused by complications due to old age. He had been seriously ill but a few days being stricken at the Lincoln House, where he had made his home for the past 20 years, late Thursday. He was rushed to the Escanaba institution but failed to rally.

He leaves no known relatives.

Pallbearers were John Bosanic, Sven Hammeroot, Romeo Boyer, Nap. LaChapelle, E. Gould and Clark Sears.

Ladies' Team Will Bowl in Tourney

Entry of a ladies' team in the Upper Peninsula Bowling tournament now being conducted at Iron Mountain, was announced yesterday. They will represent the National Auto Owners Ass'n.

Six of the best bowlers in the Gladstone Ladies' Bowling league have been picked to compose the team. They are: namely, Marie Barry, Alida Dupont, Genevieve Lewis, Mildred Cole, Marie Perras and Fannie Seck. They will compete in the five man, doubles and singles events.

Thursday, April 24, has been set as the date of participation.

TRIED NUMEROUS REMEDIES

Expresses Appreciation to Kellogg Company for Relief

If you are troubled with constipation, this letter from Mr. John J. Mulligan, 300 So. Cicero Avenue, Chicago, Ill., will interest you:

"This is simply a letter of appreciation for the wonderful results I have obtained through the use of Kellogg's ALL-BRAN.

"For years, in fact ever since my return from France, I have been troubled with constipation and its companion ills. I tried numerous remedies in vain. Finally in desperation, I decided to try your ALL-BRAN, for I was getting so that I had to be a slave to laxatives all my life. I turned to Kellogg's ALL-BRAN. Results were remarkable and quick—in fact the only real long-hoped-for relief has been given to me by your product."

The Kellogg Company has received thousands of similar letters in praise of ALL-BRAN, the product that is positively guaranteed to relieve both temporary and recurring constipation.

It also adds needed iron.

Eat Kellogg's ALL-BRAN with milk or cream . . . in soups, salads and fruit juices . . . in cooked foods and hot breads. Your grocer has ALL-BRAN in the red-and-green package. Served everywhere. Made by Kellogg in Battle Creek.

Kellogg's ALL-BRAN
Improved in Texture and Taste

DENTAL HONOR ROLL LISTS 48

Large Number Additional Pupils Named by Miss Hanson

BY CLAUDE A. JAGGER,
(Associated Press Financial Writer)

New York, April 17.—With erations held in check by the ee-day Easter closing, trading indled to the lowest levels in month in today's stock market, l while price trends were con- ingly irregular during most of day, short covering and rapid ding up of several pool favor- s gave the market a nearly ong appearance in the closing nsactions. Total sales aggre- ed 3,940,560 shares, the small- for a full session since March

Much of the day's trading re- sented adjustment of accounts, preparation for the three day sing beginning tomorrow. Some of the high priced and re volatile specialties were bid rapidly, and several utilities, usement and food shares were hed to new high levels for the r. The price index of 90 lead- shares showed a net gain of points, cancelling yesterday's s.

The weekly brokerage loan tement disclosed an unexpec- ly large gain of $131,000,000. ing to the irregularity of the rket over the period covered, ll Street was inclined to in- pret this as indicating that siderable distribution has been ng during the past week.

Merger Rumors.

Merger rumors continued to ab- o Wall Street. Rumors of dis- sions looking to a merger of rs Roebuck and Montgomery rd were revived, and there s also talk of a combination of ntgomery Ward and J. C. Pen- although this was discouraged the Penney offices. The pro- ed merger of National Dairy ducts and Kraft Phenix ap- red to be close to consumma- n. Concurrent strength of Ra- Corp., and Fox Film caused ewed talk of a combination of se interests, although the p in Fox appeared to be large- a driving in of shorts.

Coppers were generally under ssure, reflecting talk that ther reduction in the red metal y ensue. Several of the rails sagged. Issues losing about o 5 points included Anacon- Boston and Maine, Brooklyn on Gas, Chesapeake and Ohio, cago and Eastern Illinois, odyear, Granby, Johns-Mans- e, National Lead and St. Jo- h Lead. Continental Baking declined 2 points to a new 1930 .

Call money was fairly easy, lecting the desire of lenders place funds over the week-end. newals were unchanged at 4 cent, and the official rate was er reduced only to 3½, but acessions to 3 were reported the outside market. Foreign hanges eased, with Sterling in a soft spot, cables touch- $4.86 1-8, off 1-8.

Commodity markets were newhat reactionary.

CHICAGO GRAIN.

hicago, April 17.—Prices of all grains e lower today, despite strong rallies times because of pre-holiday evening- of accounts. The chief dominating fac- was authoritative announcement of plete drought relief in orthwest Kan- where thousands of acres of wheat e been without rain for months. A ecast of heavy frost in parts of Kan- tonight had but little market effect, experts asserting that no damage likely to result.

losing quotations on wheat were unset- 1-8 to 3-4c a bushel lower than yes- day's finish. Corn closed ¼ to 7-8c n, oats 3-8 to 5-8c off, and provisions hanged to a rise of 2c.

Work of new rainfalls in northwest nsas and other drought districts dis- rtened wheat bulls. Estimates that re were yet 2,000,000 acres of wheat ch have not had any rain received a d deal of attention, but failed to exert asting influence.

Provisions acted firmer, responsive to urns in the value of hogs.

Closing indemnities: Wheat, May 3-4, 1.09¼; July 1.06 3-4 to 7-8, 7-8 to 1.11; Sept. 1.09 7-8, 1.13 7-8 to 1¼; Dec. 1.14¼, 1.17 7-8. Corn, May ¼, 84 3-8; July 84 3-4 to 7-8, 85, 3-4 7-8; Sept. 85 5-8 to 3-4, 86 3-4 to 7-8.

BY JOHN L. COOLEY,
(Associated Press Financial Writer)

New York, April 17.—The bond market ended the abbreviated trading week with prices still sagging. Trading was dull, however, and price movements consisted largely of the backing and filling which has characterized the listed market during the reacting from the March highs.

The averages showed a uniform decline and the composite figure for thirty bonds dropped three-tenths of a point to 99.4, just midway between the high and low for the year. Sale bolstered considerably by the activity of half a dozen issues, mostly of the stock feature type.

Money eased. Call loans dropped to 3½ per cent after renewing at 4, while 90 day accommodations were quoted slightly lower.

Investment rails were rather mixed, although small declines outnumbered the gains.

Utilities were easy. Bonds of the industrial description were quiet.

Obligations of foreign governments and corporations failed to maintain the lively pace set during the forenoon hours, but held firm.

The market for United States Governments was dull, with the close slightly higher.

DEPARTMENT OF CONSERVATION for the STATE OF MICHIGAN.

Lansing, March 17, 1930.

NOTICE IS HEREBY GIVEN, That the following described abandoned tax land, situate in the County of DELTA, and deeded to the State by the Auditor General under the provisions of Section 127 of Act 206 of the Public Acts of 1893, has been withdrawn from homestead entry by the Auditor General and the Commission of Conservation, acting jointly, as provided by Act 141 of the Public Acts of 1901, examined and appraised and will be placed in the market by offering the same at a Public Auction to be held at this office, Room 304, State Office Building, Lansing, on Tuesday, the 22nd of April, 1930, at ten o'clock in the forenoon, Eastern Standard Time, at which time it will become subject to purchase in the manner provided by statute.

In case of sale the deed conveying the same will contain a clause reserving to the State of Michigan all rights in any mineral, coal, oil or gas found lying or being on, within or under the said lands, as required by Section 8, of Act 280 of the Public Acts of 1909, and also reserving to the People of the State of Michigan the rights of ingress and egress over and across any of said tract lying along any watercourse or stream, as also required by Section 8, of Act 280 of 1909, and further excepting and reserving to the State of Michigan all aboriginal antiquities including mounds, earth-works, forts, burial and village sites, mines or other relics and also reserving the right to explore and excavate for the same, by and through its duly authorized agents and employes, as required by Act 173, P. A. 1929

DAY'S MARKETS IN BRIEF

MARKETS ATA— up-afi- oE
New York:
Stocks irregular; Copper issues registered new low prices.
Bonds easy;
Curb irregular; Niagara Hudson again in demand.
Foreign Exchanges: Easy Sterling under pressure.
Cotton: Barely steady; pre holiday liquidation.
Sugar: Steady; steady spot market.
Coffee: Higher; foreign buying.
Chicago:
Wheat: Easy; good rains west Kansas.
Corn: Lower; bearish Iowa report.
Cattle: Higher.
Hogs: Firmer.

WALL STREET BRIEFS

New York, April 17.—The New York stock exchange, curb exchange and many other leading securities and commodity exchanges will be closed tomorrow in observance of Good Friday. They also will be closed on Saturday. Banks, however, will be open for business as usual tomorrow and on Saturday forenoon.

Orders for approximately $3,400,000 of equipment have been placed by the American Refrigeration Transit Co., of St. Louis, owned jointly by the Missouri Pacific and the Wabash railroads. The new equipment is needed, it was said, to meet the demand of increased shipments of vegetables and fruits from south Texas. The new equipment ordered includes 1,000 refrigerator cars.

The business of A. G. Spaulding & Bros., during the first five months of the current year which began last Nov. 1, is about 5 per cent ahead of that of the corresponding period of the previous year.

W. O. Snyder, Jr., of Pittsburgh, president of the Snyder Mining Co., ore mining company jointly owned by the Crucible Steel Co., and the Shenando Furnace Co., has been elected a director of the Crucible Steel Co.

NOTICE OF MORTGAGE SALE.

Whereas Emery Juneau and Mary Juneau, his wife, of the City of Escanaba, Michigan, made and executed a certain mortgage, bearing the date of October 1, 1923, to Edward W. Marshall, of Escanaba, Michigan, which was recorded in the office of the register of deeds of the county of Delta, Michigan, on the first day of October, 1923 at 2:30 in the afternoon, in Liber 29 of Mortgages at pages 471 and 472;

And whereas the amount claimed to be due on said mortgage is the sum of $2300.00 principal and $87.20 interest together with $35.00 as attorney fee provided for in said mortgage in case of foreclosure thereof, and no suit or proceedings has been instituted at law to recover the debt, now remaining secured thereby, or any part thereof.

And whereas, default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative;

Now therefore, notice is hereby given, that by virtue of said power of sale, and in pursuance thereof, and of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue, to the highest bidder, at the front door of the court house, at Escanaba, in said county of Delta, that being the place of holding the circuit court within said county, on the eighteenth day of July, 1930, at two o'clock in the afternoon. The description of the said premises contained in said mortgage is as follows: All that certain piece of land, situate and being in the City of Escanaba, County of Delta and State of Michigan and described as follows: The east half of the southeast quarter of the northeast quarter of the northeast quarter of section thirty six in township thirty nine north of range twenty three west containing five acres, less a strip of land thirty five feet in width along the east line running north and south deeded to the City of Escanaba for highway purposes.

EDWARD W. MARSHALL,
Mortgagee.

N. C. SPENCER,
Atty. for Mortgagee.

CURB MARKET HAS DULL DAY

BY STANLEY W. PRENOSIL,
(Associated Press Financial Writer)

New York, April 17.—Trading on the New York curb exchange dwindled to the usual pre-holiday proportions today, with the price movements irregular but generally upward. Flurries on selling swept through the market at intervals but offerings were well absorbed, and most of the leaders closed around the day's high prices.

In the public utility group, American Light & Traction issues, Brazilian Light & Traction, Electric Power & Light Optional Warrants, Sierra Pacific Electric, Southwest Gas Utilities and United Light & Power "A" moved into new high ground on gains that ran from 1 to nearly 4 points. Electric Bond and Share closed more than a point higher at 116½ and Niagara Hudson advanced to within a small fraction of the year's top.

Fox Theatres moved into new high ground on reports that the Loews stock held by it would be sold to General Theatres Equipment at a price substantially above current market quotations.

Classified Advertising

CLASSIFIED ADVERTISING RATE
Daily rate, consecutive insertions.

Rate per line	Charge	Cash
One Time	.16	.12
Three Times	.14	.10
Six Times	.12	.08

WHEN AND WHERE TO PLACE YOUR ADS

The Classified Advertising Department is situated at
600-602 Ludington St.

These offices are open to receive advertisements from 8 a. m., to 6 p. m., daily. All ads received up until 6 p. m. will appear in editions the following day.

PHONE YOUR CLASSIFIED AD TO 693

The ad taker will gladly assist you, if desired, so that the copy for your ad is prepared in such a manner as to bring the greatest results for you.

CLASSIFIED ADVERTISING INFORMATION

Errors in advertisements should be reported immediately. The Daily Press will not be responsible for more than one incorrect insertion.

All ads are restricted to their proper classification and to the regular Daily Press style of type. The publishers reserve the right to edit or reject any classified advertising copy.

Advertising ordered for irregular insertions takes the one time rate. No ad is taken for less than a basis of three lines. Count six average words to the line. An average word contains six letters.

Accounts unpaid after 20 days will not be granted further credit.

Charged ads will be received by telephone, and if paid at the Daily Press office within six days from the first day of insertion cash rates will be allowed.

Ads ordered for three or six times and stopped before expiration will be charged for only the number of times the ad appeared and adjustment made at the rate earned.

Tigers Trim Browns Again In Abridged Tussle

GAME CALLED, FIFTH FRAME

Earl Whitehill in Fine Form As Detroit Wins, 6-1

Detroit, April 17 (AP)—Earl Whitehill held the St. Louis Browns to three singles and the Tigers won their second straight victory on the opening series, 6 to 1, between showers here today. The game was called after five and one half innings because of heavy rain which flooded the playing field.

Big Dale Alexander and Marty McManus hit their first home runs of the season. Alvin Crowder started on the mound for St. Louis and was relieved by Coffman after allowing seven hits and four runs in four innings. Coffman struck out three batsmen in the dark, but after he had walked Gehringer and allowed Alexander to hit his homer into the bleachers.

Roy Johnson duplicated his feat of the opening game by singling to left his first time up. Kress, St. Louis shortstop, ran out of position expecting a hit and run play, and Jonathan Stone singled through short, sending Johnson to third from where he scored on Gehringer's sacrifice fly to Manush. Stone scored from second on Rice's single. Rice took second while Crodler singled.

Browns Score

The Browns got their lone tally in the first inning on singles by O'Rourke and Manush followed by Kress' sacrifice fly.

McManus hit his homer into Cherry street to start the home half of the fourth. Rogell singled to right, advanced to second on Hayworth's sacrifice, and scored on Johnson's single to left.

Coffman walked Gehringer starting the fifth and rain had forced Umpire Nallin to call time. Big Alex was long overdue. He lifted the ball into the right field bleachers and trotted in behind Gehringer to make the final count 6 to 1.

About 4,000 fans braved the inclement weather to see the game.

SETTLED OUT OF COURT.

New York, April 17.—All litigation in the United States district court involving the Fox Film and Theatres Corporations and William Fox, former president of the two concerns, has been settled out of court, Federal Judge John C. Knox announced today.

Fox recently sold his controlling interest in the two corporations to Harley F. Clarke of Chicago, which brought to an end differences between Fox and stockholders over refinancing plans for the corporations.

MERGER APPROVED.

Toronto, April 17.—The proposed merger of Famous Players-Canadian Corporation with Paramount-Nitous-Lasky Corporation through an exchange of stock was approved today by the board of directors of the former company. J. O. Bickell, vice president of the Canadian company, said he expected no opposition from stockholders. According to the terms of the agreement made public by Mr. Bickell, the exchange would be on the basis of five shares of Famous Players Canadian for four of Paramount-Famous-Lasky.

FUR SCARF

A smart fur scarf, cut like a silk one that makes a bow under the chin or slips one end through the other, is more chic than a mere fox-scarf this spring.

U. P. Briefs

Guilty of Assault.

Iron Mountain, Mich.—Steve Korenchuk, former employe of the Northern Sawmill company, Sagola, and charged with assault with intent to do great bodily harm less than the crime of murder, was found guilty of the lesser charge of assault and battery by a jury in circuit court this morning after about 20 minutes deliberation. The jury went out at 10:45 and returned at 11:05 o'clock.

Fred Wellendorf, likewise formerly employed at the Sagola mill, was the complainant.

Baking Firm Grows.

Iron River, Mich.—From a humble beginning in Crystal Falls 25 years ago to one of the outstanding baking plants north of Milwaukee—that is the rapid growth of the Nolingberg Baking company, Inc., of Iron River.

The Nolinberg firm, which embraces practically the entire family, has one of the most modern buildings of its kind in the upper peninsula. It is located on the southeast corner of Fourth avenue and Maple street. The general construction is brick and reinforced concrete.

Mahon Is Chairman.

Crystal Falls, Mich.—By a vote of 9 to 7, R. C. Mahon, supervisor and commissioner of Iron River city, was elected chairman of the Iron county board of supervisors at the annual reorganization meeting today.

Mahon defeated J. E. Udd, veteran Crystal Falls supervisor, who has been chairman for the last 14 years and a member of the board for 20 years.

It is the first time in the history of the county that Iron River was successful in its fight to obtain the chairmanship of the board.

The ballot was secret. Udd was the first man to congratulate Mahon.

Feud at Perronville.

Perronville, Mich. — Perronville is scheduled for a spring housecleaning, Prosecutor Attorney K. O. Doyle said today after his return from an investigation of the disorders which developed in the village and vicinity recently. While there have been no violent disorders, he said conditions there were somewhat as at Banat. Originating in a quarrel between children calling each other names, a feud developed and broke out on last election day.

Moonshine liquor, the prosecutor said, was evidently at the bottom of the entire situation.

Menominee, Mich. — Imagine living with your husband for several years, and never once during that time had he helped you with the dishes—and then to walk into the home of another woman you suspected of stealing his affections and find him with an apron around him wiping the soiled plates. That happened recently to Mrs. Charles Baldwin when she entered the home of Mrs. Grace Polan. Baldwin was arrested.

CUBS SHUTOUT CARDINALS, 3-0

Stars of National Title Holders Take Rest For Day

St. Louis, April 17 (AP)—Pat Malone had his fast ball working to perfection today and the Chicago Cubs won from the Cardinals, 3 to 0, in a game halted after the sixth inning because of a heavy shower.

The Cubs scored another run in their half of the seventh, but the score reverted to that at the end of the sixth.

While Malone was holding the Cardinals to three hits, the Cubs were finding Herman Bell for seven, including a home run by Riggs Stephenson in the fourth inning. Stephenson also hit two doubles for a perfect day at bat.

Rogers Hornsby and Charley Grimm were out of the Cubs lineup. Manager McCarthy decided a rest would do his stars good. Hornsby has been limping slightly from a sore heel and Grimm has a sore rib.

Cancer Increasing, Authority Asserts

Boston, April 16. (AP)—Dr. Joseph C. Bloodgood of Baltimore, Johns Hopkins hospital surgeon and cancer authority, told the New England Health Institute today that in spite of all educational campaigns and all progress in surgical and x-ray treatments, cancer is still increasing and that it never will be controlled until its cause and cure are discovered.

Dr. Bloodgood said he had recommended to the United States Public Health Service at their request a thorough survey of cancer cases and records, but continued:

"There is no doubt that this survey will demonstrate that, no matter how extensively the people are educated, no matter how accurate the diagnosis and skillful the treatment, cancer can never be controlled until its cause, its preventive, and its curative treatment are discovered."

KILLED INSTANTLY

Howell, Mich., April 26 (AP)—Walter Nightingale, 40, was instantly killed when his automobile was struck by a switch train at the Ann Arbor railroad crossing here this afternoon. He was on his way to work when the accident occurred.

In many parts of Africa there is a tree which bears large seeds resembling sausages.

Marquette's Gridiron Warriors to Do Real Hard Work in Summer

Milwaukee, Wis.—Perhaps it's because of the so-called mechanical era or possibly because they don't incline that way, but carrying ice as a summer job appears to be passe among modern varsity football warriors.

Marquette university gridiron men, who have been undergoing heavy spring drill for five weeks; have been asked what they intend to do during the summer months in response to Coach Frank J. Murray's plea for "hard, conditioning work," and not one has chosen ice-tongs.

Capt. Arthur (Red) Bultman, 195 pound center, will set an example for his team-mates by toiling with heavy timbers on a bridge construction crew near Green Bay, Wis., his home town. **Harold Beaton, Bultman's competition at center and an Escanaba, Mich., sophomore, will play the role of a lumberjack in the Upper Peninsula.**

Francis Deig, husky fullback from Mt. Vernon, Ind., already is lined up for heavy duty with a steel construction gang in Milwaukee during the vacation time, and Kenneth (Jerk) Wendt, Golden Avalanche tackle last fall, will work in a Chicago steel foundry.

Tom McQueen, sophomore end candidate from Eau Claire, Wis., will be "working for the railroad"; Francis McElligott, wee quarterback, will be a mason's helper in Chicago, the old home town; Mel Brosseau, also a Chicago boy and a halfback, will keep in condition at a summer camp; Ray Max, Milwaukee fullback, will work with a local manufacturing concern, and Joe Fitzgerald, sophomore end, will head for Chicago and road construction duties.

Coach Murray should greet a toughened crew of youngsters when he issues the call for training next September.

Hilding Olson Is Tennis Candidate At State College

East Lansing, April 17.—Coach C. D. Ball of the Michigan State College tennis squad finds himself in a trying position he has the stiffest and longest schedule ever booked for Spartan netmen and has only one varsity experienced man ready to take the court. Capt. Paul Kane, of Owosso, who finished second to Byrum, of Western State Teachers, in the state intercollegiate last spring, is the only tried veteran.

After looking his proteges over for a couple of weeks, Coach Ball is not cheered over the prospects. He is working hard with the candidates, hoping that practice will bring them along for their first meet with Albion here April 26.

Reserve men from last year's squad who are available this season are: William Mott, Chicago; Franklin Shearer, Detroit; Gordon Evans, Battle Creek; Fred Cameron, Lansing; Raymond Jennings, Lansing. Sophomore prospects are only fair. Men trying for the first time for the team are: Marshall, Goodwin, and Lawrence Sexton, Lansing; **Hilding Olson, Escanaba**; Dee Pinneo and Carl Stinson, Grand Rapids; Burton Dole, East Lansing.

Tennis Tournament Postponed, Rain

Pinehurst, N. C., April 17. (AP)—A cold driving rain, caused postponement ofthe men's semi-final round of the United North and South Tennis Tournament today, but the women finished their singles and doubles matches before the downpour started.

Miss Penelope Anderson of Richmond, Va., and Mrs. Marian Jessup of Wilmington, Del., fought their way to the finals, Miss Anderson crushing Miss Virginia Hilleary of Philadelphia, 9-7, 6-1, while Mrs. Jessup was taking the measure of Miss Virginia Rice of Boston, 6-3, 4-6, 6-2.

So cold was the weather that the players had to keep on their sweaters and the few spectators who ventured to the side lines shivered in overcoats.

In the doubles matches, Mrs. Jessup and Miss Marjorie Morrill, of Boston, Mass., won from Miss Anne Page and Miss Anne Townsend, both of Philadelphia, 6-2, 3-6, 6-4.

Miss Dorothy Andrus of Greenwich, Conn., and Miss Hilleary defeated Miss Anderson and Miss Rice, 6-3, 6-3.

The semi-final matches for men are scheduled for tomorrow and the finals for Saturday.

White Sox Stage Rally In Sixth to Defeat Cleveland

Chicago, April 17. (AP)—Donie Bush's White Sox staged a rally in the sixth inning of today's opener with Cleveland to score six runs and finally won out in the tenth, 8 to 7.

Willis Hudling, Indian mound ace, and Harder were pounded for eight lusty wallops in the healthy sixth, which netted six runs.

In the tenth Cissell walked, Reynolds was hit by a pitched ball and Metzlar doubled against the right field wall to score Cissell for the winning tally.

A crowd estimated at 25,000 looked on.

At Athens, Ga.: Michigan 7; Georgia 11.

YPSI WILL PLAY STATE COLLEGE

Bud Gibbs Leads Spartans in Hitting With .600 Mark

East Lansing, April 17—Michigan State Normal at Ypsilanti will entertain the Michigan State college baseball team Saturday. Flushed by their 12 to 4 victory over the University of Chicago here last Saturday, the Spartans are rapidly gaining the confidence that Coach John Kobs desires his squads to possess.

Results of the southern training trip and the first home game seem to indicate that Kobs has the hardest hitting aggregation in his five years as mentor of the Spartan nines. The team is being led by **Ed (Bud) Gibbs, Perkins, Mich.**, outfielder who is setting a dizzy pace. He is batting well over .600 for six games. His two homers, triple and single for a perfect day at bat against Chicago boosted his average. This was the second game in which he made a hit every time at bat. Against Cincinnati university he banged out five hits in as many trips to the plate.

Kobs probably will call upon one of his second string moundsmen for the Ypsilanti game. He is anxious to see some of his reserve hurlers perform. Bulloch or Langdon, who hurled a game apiece in the south, and Pete Brose, a big Petersburg, Mich., sophomore right hander who has not had a chance to start a game as yet, are the possibilities.

TYING CHIC

Everything that can ties this spring. Cuffs, collars, belts and sashes, suits, coats and evening wraps have a way of tying in feminine bows instead of buttoning, in the tailored manner.

Pirates Take 7-1 Decision From Reds

Cincinnati, O., April 17 (AP)—Larry French, Pittsburgh, almost entered baseball's hall of fame today as he pitched the Pirates to a 7 to 1 victory over the Cincinnati Reds.

French held the Reds hitless until the seventh inning when Bob Meusel broke the spell with a single. But Cincinnati did not score until the ninth when Ethan Allen, the first batter, drove the ball over the left field fence for a home run. Previously no Red player had reached second base although French gave five walks.

The Pirates fell on Eppa Rixey, who was starting his 18th major league season for five hits and four runs in the third inning and drove him from the mound. Johnson, Ash and Frey succeeded him, granting six more hits and three runs.

Tryouts Will Be Held For Female Golfers' Invasion

New York, N. Y., April 17. (AP)—Miss Glenna Collett, national champion and captain of the team of American women golfers who will meet a squad of British women niblick swingers at Sunningdale, England, May 1, announced today the pairings for a set of tryout foursomes to be held at the Knollwood club, White Plains, N. Y., next Monday. The American team, numbering sixteen players, will sail for England the next day on the Berengaria.

Although several members of the squad are not due in New York until the day of sailing, Miss Collett paired off the entire team for foursomes. Five of these foursomes and ten singles matches also are on the card for the contest abroad. The Knollwood club was chosen for the tryouts because of its resemblance to the famous English course.

NEW GOLF PRO ARRIVES HERE

Merrill S. Maisack Will Assume Duties at Club Today

Merrill S. Maisack, accompanied by his wife and three-year-old daughter, arrived yesterday noon by motor from Bisbee, Arizona, to assume his duties as golf professional at the Escanaba Golf club. They left Bisbee last Thursday, making the 2370-mile trip without any difficulty.

Mr. Maisack, who has been the professional at the Bisbee Country club the last two winters, is an experienced instructor, having followed the profession for more than a score years. He gave 476 lessons to novices at Bisbee in three months from last December 1 to March 1.

He served as professional of the Edgewood Country club for 14 years, and later held similar positions in various parts of the country. He supervised the building of the golf course of the University of Florida at Gainesville the Ocala Highlands, Fla., links and also the Lacrosse Country club. Mr. Maisack will assume his duties at the local club today.

TO FIX HORSE RACING DATES

Upper Peninsula Circuit Officials Meet Here April 24

The Upper Peninsula Racing association will meet at the office of the Upper Peninsula State Fair on Thursday, April 24, to draft the schedule for the 1930 racing season and to discuss other plans.

The meeting will be attended by fair secretaries, superintendents of speed and horsemen from all parts of the peninsula. About thirty persons are expected to attend.

The meeting will open at 10 a. m. with the racing programs of the Upper Peninsula State Fair and the various county fairs as the first business to be disposed of. A luncheon will be held at the Delta hotel at noon when Oscar Kraus will preside as chairman of a brief speaking program.

John P. McNamara of Marquette is president of the association.

Legion's Highway Tree Planting Is Growing In Scope

In addition to the "Memory Lane" tree planting program outlined by the Escanaba American Legion for this season, the committee reported that Attorney Stanley M. Matthews of this city would plant trees along the highway west of the city from Joseph LaFleur's oil station to the first bridge. Attorney Matthews owns 40 acres of land along the road at this point, and will carry out the tree planting project all along the highway adjacent to his property. Trees will be of the same species used by the Legion in their Memory Lane plantings, and will be handled through the same nurseryman.

The committee reported that 62 trees had been pledged for Memory Lane this season. The Legion post has laid out a program of planting which will require 100 trees. Those who have contributed to date are:

Rotary club 15, Mrs. Roneberg 1, Mrs. Kate Mathis 2, Kiwanis club 15, Mrs. Cecil Campbell 1, Henry Ranguette 2, William A. Schultz 1, North Star society 2, Mrs. B. Rockwell 1, Axel E. Anderson 2, George Petry 2, A. E. Johnson 2, T. F. Kessler 4, E. J. Noreus 4, Women's Relief Corps 6, Business and Professional Women's club 2.

Bureau Compiling Tourist Room List

Householders in Escanaba who have rooms available for rental to tourists and transients may now register them at the Mead Drug company, official tourist bureau. Preparations are being made at the bureau for the opening of the tourist season, and the information to be filed will include a listing of rooms. Local residents who have space which they wish to utilize in this manner during the tourist season are asked to furnish the information bureau with a list giving the street address, number of rooms, size, and other data desired. The list is now being compiled for the 1930 season, and rooms should be registered as early as possible.

Fraternal

Meeting Postponed

The special meeting of Canton Hiawatha, No. 48, Patriarchs Militant, I. O. O. F., which was to be held this evening, has been postponed because of pre-Easter activities. Officers and members will please notice.

Pythian Sisters Tonight

The Escanaba Pythian Sisters will hold their regular meeting tonight at eight o'clock sharp. A good attendance is desired.

First Annual Dance Planned by Masons

Masonic lodges from all nearby cities will be invited to the first annual Masonic ball which will be held at the Coliseum, Escanaba, May 23, under the auspices of the local Blue Lodge, Chapter, Commandery and Eastern Star.

All preliminary plans have been laid for the affair, and Johnson's orchestra has been engaged to supply the music.

Chairmen of the various committees in charge of arrangements are as follows:

Reception—F. J. Earle.
Outside Invitations—L. A. Stade.
Music and Program—Arnold Nelson.
Local Invitations and Advertising—James Davidson.
Property—Nick Carr.
Decorations—Charles Magnuson.

Many Attend Meet Of Credit Bureau

"The Legal Aspects of Credits and Collections" was the subject of an interesting talk given by Prosecuting Attorney Glenn W. Jackson at a meeting of the credit bureau of the Escanaba Chamber of Commerce at the Delta hotel last evening. C. B. Smith presided as chairman of the meeting. It was well attended.
